Emergency hospital admissions for injuries resulting from a fall (over 65), per 1,000 population
Falls data: the figures given here are taken from Hospital Episode Statistics data, which takes the number of those aged 65 or over being admitted to hospital on a non-elective basis at least once in each year as a result of a fall and divides it by the number of those of that age group resident in each ward to give a rate per 1,000 population.

Adult Social Care

Social isolation

Social isolation: This is based on respondents to two questions on the Adult Social Care Survey regarding social contact and how time is spent.
A score of 1 indicates that the respondent has plenty of social contact and that they spend their time doing things they enjoy
A score of 4 indicates that the respondent feels socially isolated and that they don't feel they do anything of value with their time.

The mean of all respondents' responses to both questions is the score presented here.

Broadband coverage and speeds

In March 2017 the UK Government introduced the Universal Service Obligation (USO) for broadband as part of its commitment in the UK Digital Strategy to ensure that the UK has world-class digital connectivity and inclusion.

| Measure	Heworth Without	York	Summary
Average download speed (Mb/s)	190.06	177.50	faster than the York average
Superfast broadband availability	97.73%	96.17%	better than the York average
Connections receiving:			
slowest speeds (under 2 Mb/s)	0.00%	0.04%	lower than the York average
slower speeds (under 10 Mb/s)	0.26%	0.67%	lower than the York average
superfast speeds (over 30 Mb/s)	98.58%	96.32%	higher than the York average

This data is based on analysis of Ofcom's Connected Nations data for 2022/2023. Ofcom collected and analysed data from major fixed telecoms operators (BT, Virgin Media, Sky, Talk Talk, Vodafone and KCOM).
Due to variations in broadband performance over time, Ofcom cautions that the data should not be regarded as a definitive and fixed view of the broadband infrastructure but rather a snapshot of current variation in availability and performance across the country.
The vast majority of UK homes can now get superfast broadband, which provides download speeds of at least 30 Mbit/s; although more than a quarter who have access to it have not taken it up.

Resident Engagement

Resident responses about the Local Economy

Respondents who are retired or not working due to long term illness or disability were ineligible to answer the following

Experian Groups

E Senior Security

Retired singles and couples, pre-war generation, established in community, low internet use, have wills.

G Domestic Success

Families with children, mid to high household income, monthly discretionary income under £1000, very high mortgage debt, internet via smartphone.

F Suburban Stability

Older families, no children, own mid-value semis, 3 bedrooms, established in community, news and media sites.

B Prestige Positions

Own large, detached houses, highly educated, high discretionary income, garden or allotment, pay credit cards in full.

H Aspiring Homemakers

Families with young children, 3 bedrooms, high outstanding mortgages, internet via smartphone, texts and photos on smartphone.

L Vintage Value

Retired singles, council/ha tenants, no qualifications, low discretionary income, low-tech households.

C Country Living

Rural locations, own old, detached houses, electronic money transfers, garden or allotment, oil central heating.

Experian Types

E19 Bungalow Haven

Pre-war generation, own bungalows, no outstanding mortgage, university degrees, pay credit cards in full.

E18 Legacy Elders

Retired singles, pre-war generation, university degrees, homeowners, no outstanding mortgage.

G29 Mid-Career Convention

Married couples, 2+ children, generation x, homeowners, outstanding mortgage.

E20 Classic Grandparents

Retired couples, established in community, no qualifications, low internet use, have wills.

F25 Dependable Me

Older singles, no children, baby boomers, homeowners, 3 bedrooms, university degrees.

F22 Boomerang Boarders

Adult children at home, own 3 bed semis, established in community, low to mid-income, watch tv.

H32 First-Rung Futures

Singles, millennials, university degrees, high outstanding mortgages, internet via smartphone.

G26 Cafés and Catchments

Families with children, generation x, university degrees, high value, pre-war properties, mid to high household income.

G27 Thriving Independence

Middle-aged singles, no children, homeowners, calls via smartphone, internet first place for information.

E21 Solo Retirees

Retired singles, no qualifications, own mid-value semis, low income, water poverty.
