Poverty

Child Poverty

The proportion of children living in families in receipt of out-of-work (means-tested) benefits or in receipt of tax credits where their reported income is less than 60 per cent of UK median income

Fuel Poverty

The Low Income High Costs indicator is a twin indicator consisting of:

- the number of households that have both low incomes and high fuel costs; and
- the depth of fuel poverty amongst these fuel poor households.

This is measured through a fuel poverty gap which represents the difference between the required fuel costs for each household and the median required fuel costs.

Pension Credit

Pension Credit is an income-related benefit made up of 2 parts - Guarantee Credit and Savings Credit.

Strensall Ward Profile

Adult Social Care

Social isolation

Social isolation: This is based on respondents to two questions on the Adult Social Care Survey regarding social contact and how time is spent. A score of 1 indicates that the respondent has plenty of social contact and that they spend their time doing things they enjoy. A score of 4 indicates that the respondent feels socially isolated and that they don't feel they do anything of value with their time. The mean of all respondents' responses to both questions is the score presented here.

Strensall Ward Profile

Broadband coverage and speeds

In March 2017 the UK Government introduced the Universal Service Obligation (USO) for broadband as part of its commitment in the UK Digital Strategy to ensure that the UK has world-class digital connectivity and inclusion.

Measure	Strensall	York	Summary
Average download speed (Mb/s)	22.79	102.90	slower than the York average
Superfast broadband availability	89.41%	92.00%	worse than the York average
Connections receiving:			
slowest speeds (under 2 Mb/s)	0.95%	1.00%	lower than the York average
slower speeds (under 10 Mb/s)	22.79%	1.00%	higher than the York average
superfast speeds (over 30 Mb/s)	25.74%	42.00%	lower than the York average

This data is based on House of Commons Library analysis of Ofcom's Connected Nations data. Ofcom collected and analysed data from major fixed telecoms operators (BT, Virgin Media, Sky, Talk Talk, Vodafone and KCOM). The availability data also includes coverage information provided by alternative network providers (B4RN, BU-UK, City Fibre, Gigaclear, Hyperoptic, ITS and Relish). Due to variations in broadband performance over time, Ofcom cautions that the data should not be regarded as a definitive and fixed view of the broadband infrastructure but rather a snapshot of current variation in availability and performance across the country.
