Poverty

Child Poverty

The proportion of children living in families in receipt of out-of-work (means-tested) benefits or in receipt of tax credits where their reported income is less than 60 per cent of UK median income

Source: HM Revenue & Customs

Fuel Poverty

The Low Income High Costs indicator is a twin indicator consisting of:

- the number of households that have both low incomes and high fuel costs; and
- the depth of fuel poverty amongst these fuel poor households.

This is measured through a fuel poverty gap which represents the difference between the required fuel costs for each household and the median required fuel costs.

Hospital Admissions

Hospital Admissions, All ages

The Standardised Admission Ratio (SAR) is a summary estimate of admission rates relative to the national pattern of admissions and takes into account differences in a population's age, sex and socioeconomic deprivation. The National value is 100.

Hospital Admissions - Children & Young People

Emergency hospital admissions

Emergency hospital admissions for injuries resulting from a fall (over 65), per 1,000 population

Falls data: the figures given here are taken from Hospital Episode Statistics data, which takes the number of those aged 65 or over being admitted to hospital on a non-elective basis at least once in each year as a result of a fall and divides it by the number of those of that age group resident in each ward to give a rate per 1,000 population.

Adult Social Care

Social isolation

Social isolation: This is based on respondents to two questions on the Adult Social Care Survey regarding social contact and how time is spent.

A score of 1 indicates that the respondent has plenty of social contact and that they spend their time doing things they enjoy

A score of 4 indicates that the respondent feels socially isolated and that they don't feel they do anything of value with their time.

The mean of all respondents' responses to both questions is the score presented here.

Broadband coverage and speeds

In March 2017 the UK Government introduced the Universal Service Obligation (USO) for broadband as part of its commitment in the UK Digital Strategy to ensure that the UK has world-class digital connectivity and inclusion.

Measure	Huntington and New Earswick	York	Summary
Average download speed (Mb/s)	35.91	56.10	slower than the York average
Superfast broadband availability	98.29%	93.81%	better than the York average
Connections receiving:			
slowest speeds (under 2 Mb/s)	0.00%	0.04%	lower than the York average
slower speeds (under 10 Mb/s)	0.29%	0.64%	lower than the York average
superfast speeds (over 30 Mb/s)	97.92%	93.06%	higher than the York average

This data is based on analysis of Ofcom's Connected Nations data for 2019/2020. Ofcom collected and analysed data from major fixed telecoms operators (BT, Virgin Media, Sky, Talk Talk, Vodafone and KCOM). The availability data also includes coverage information provided by alternative network providers (B4RN, BU-UK, City Fibre, Gigaclear, Hyperoptic, ITS and Relish). Due to variations in broadband performance over time, Ofcom cautions that the data should not be regarded as a definitive and fixed view of the broadband infrastructure but rather a snapshot of current variation in availability and performance across the country. Due to privacy concerns Ofcom did not present the information in postcodes with fewer than four broadband connections.

Resident Engagement

Resident responses about the Local Economy

Respondents who are retired or not working due to long term illness or disability were ineligible to answer the following

Experian Groups
F Senior Security Elderly singles and couples, homeowners, comfortable homes, additional pensions above state, don't like new technology.
E Suburban Stability Older families, some adult children at home, suburban mid-range homes, 3 bedrooms, have lived at same address some years.
H Aspiring Homemakers Younger households, full-time employment, private suburbs, affordable housing costs, starter salaries.
N Vintage Value Elderly, living alone, low income, small houses and flats, need support.
D Domestic Success Families with children, upmarket suburban homes, owned with a mortgage, 3 or 4 bedrooms, high internet use.
M Family Basics Families with children, aged 25 to 40, limited resources, some own low cost homes, some rent from social landlords.
B Prestige Positions High value detached homes, married couples, managerial and senior positions, supporting students and older children, high assets and investments.
Experian Types
F24 Bungalow Haven Elderly couples and singles, own their bungalow outright, neighbourhoods of elderly people, may research online, like buying in store.
M56 Solid Economy Families with children, renting from social landlord, pockets of social housing, lower wage service roles, relatively stable finances.
H31 First-Rung Futures Younger couples and singles, own 2 or 3 bed semis and terraces, affordable suburbs, have lived there under 4 years, buy and sell on ebay.
E18 Dependable Me Mature singles, traditional suburbs, own lower value semis, have lived in same house 15 years, intermediate occupations.
N61 Estate Veterans Average age 75, often living alone, long term social renters of current home, living on estates with some deprivation, low income.
F25 Classic Grandparents Elderly couples, traditional views, not good with new technology, most likely to have a basic mobile, long length of residence.
E19 Fledgling Free Older married couples, children have left home, respectable incomes, own suburban 3 bed semis, one partner often not working full-time.
D17 Thriving Independence Singles and cohabitees 36+, family neighbourhoods, middle managers, large outstanding mortgage, comfortable income.
E20 Boomerang Boarders Adult children living with parents, respectable incomes, own mid-range semis or detached homes, older suburbs, search electricals online while in store.
F23 Solo Retirees Elderly singles, small private pension, long length of residence, own a suburban semi or terrace, keep bills down by turning things off.
