## Poverty

### Child Poverty

The proportion of children (under 16) who are living in families whose reported income is less than 60 per cent of UK median income

### Fuel Poverty

The Low Income High Costs indicator is a twin indicator consisting of:

- the number of households that have both low incomes and high fuel costs; and
- the depth of fuel poverty amongst these fuel poor households.

This is measured through a fuel poverty gap which represents the difference between the required fuel costs for each household and the median required fuel costs.

### Pension Credit

Pension Credit is an income-related benefit made up of 2 parts - Guarantee Credit and Savings Credit.

## Indices of Multiple Deprivation

The IMD measures and rates a number of different domains affecting quality of life including income, employment, education and skills, health and disability, crime, barriers to services and quality of living environments. **A high score is bad.**

### Hospital Admissions

#### Hospital Admissions, All ages

The Standardised Admission Ratio (SAR) is a summary estimate of admission rates relative to the national pattern of admissions and takes into account differences in a population's age, sex and socioeconomic deprivation. The National value is 100.

York Fishergate - 2015/2016 2017/2018

## Hospital Admissions - Children & Young People

## Emergency hospital admissions

## Emergency hospital admissions for injuries resulting from a fall (over 65), per 1,000 population

**Falls data:** the figures given here are taken from Hospital Episode Statistics data, which takes the number of those aged 65 or over being admitted to hospital on a non-elective basis at least once in each year as a result of a fall and divides it by the number of those of that age group resident in each ward to give a rate per 1,000 population.

## Adult Social Care

### Social isolation

Social isolation: This is based on respondents to two questions on the Adult Social Care Survey regarding social contact and how time is spent.

A score of 1 indicates that the respondent has plenty of social contact and that they spend their time doing things they enjoy

A score of 4 indicates that the respondent feels socially isolated and that they don't feel they do anything of value with their time.

The mean of all respondents' responses to both questions is the score presented here.

## Broadband coverage and speeds

In March 2017 the UK Government introduced the Universal Service Obligation (USO) for broadband as part of its commitment in the UK Digital Strategy to ensure that the UK has world-class digital connectivity and inclusion.

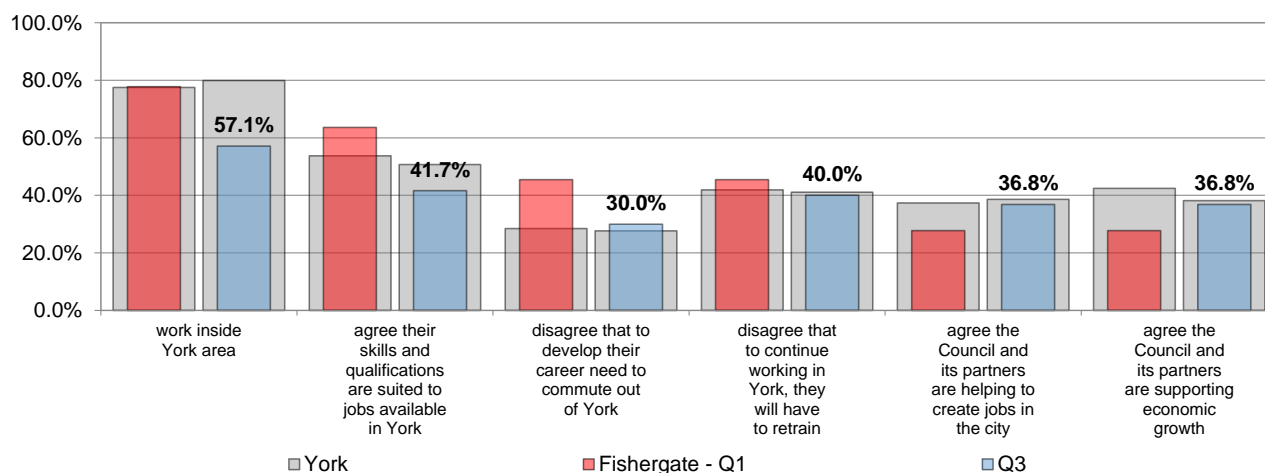

| Measure                          | Fishergate | York   | Summary                      |
|----------------------------------|------------|--------|------------------------------|
| Average download speed (Mb/s)    | 57.48      | 147.10 | slower than the York average |
| Superfast broadband availability | 89.19%     | 94.13% | worse than the York average  |
| Connections receiving:           |            |        |                              |
| slowest speeds (under 2 Mb/s)    | 0.00%      | 0.04%  | lower than the York average  |
| slower speeds (under 10 Mb/s)    | 1.43%      | 0.81%  | higher than the York average |
| superfast speeds (over 30 Mb/s)  | 87.88%     | 93.35% | lower than the York average  |

This data is based on analysis of Ofcom's Connected Nations data for 2020/2021. Ofcom collected and analysed data from major fixed telecoms operators (BT, Virgin Media, Sky, Talk Talk, Vodafone and KCOM). The availability data also includes coverage information provided by alternative network providers (B4RN, BU-UK, City Fibre, Gigaclear, Hyperoptic, ITS and Relish). Due to variations in broadband performance over time, Ofcom cautions that the data should not be regarded as a definitive and fixed view of the broadband infrastructure but rather a snapshot of current variation in availability and performance across the country. Due to privacy concerns Ofcom did not present the information in postcodes with fewer than four broadband connections.

## Resident Engagement

### Resident responses about the Local Economy

Respondents who are retired or not working due to long term illness or disability were ineligible to answer the following

NB - Number of responses varies for each question

Source: Talkabout Survey - Q1 + Q3 2019/2020

### Resident satisfaction responses about their Local Area

Respondents were asked to consider their Local Area as the area within 15-20 minutes walking distance from their home

NB - Number of responses varies for each question
