Poverty

Percentage of children who live in households where a parent or guardian claimed an out-of-work benefit.

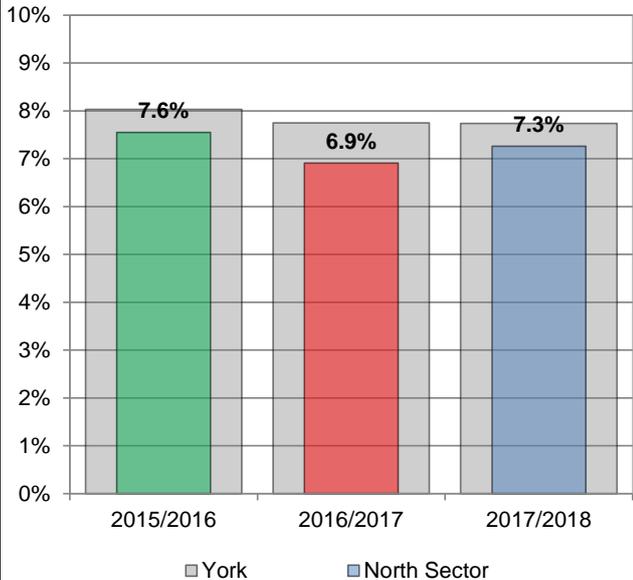

Source: HM Revenue & Customs

Fuel Poverty

The Low Income High Costs indicator is a twin indicator consisting of:
• the number of households that have both low incomes and high fuel costs; and
• the depth of fuel poverty amongst these fuel poor households.
This is measured through a fuel poverty gap which represents the difference between the required fuel costs for each household and the median required fuel costs.
