

City of York Council

Budget Consultation 2020/21

SUMMARY

The online Budget Consultation 2020/21 opened on 15/11/2019 and closed on 31/12/2019. Additionally, a short version of the survey was sent to households inside the Our City publication, with a closing date of 12/01/2020.

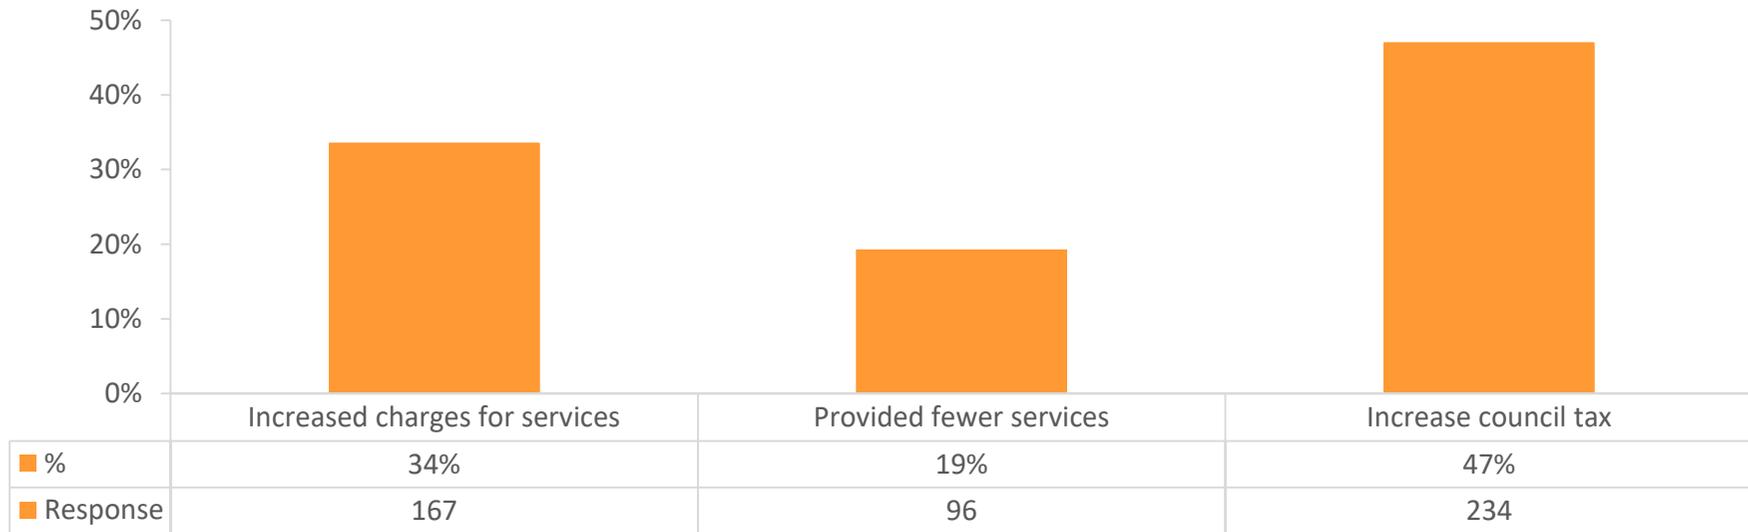

A total of 825 residents and businesses participated.

The consultation gave the residents and businesses of York the opportunity to put forward their views to help the council make decisions and deliver the budget for 2020/21.

The consultation results and the raw data will be made available on the council open data platform www.yorkopendata.org.

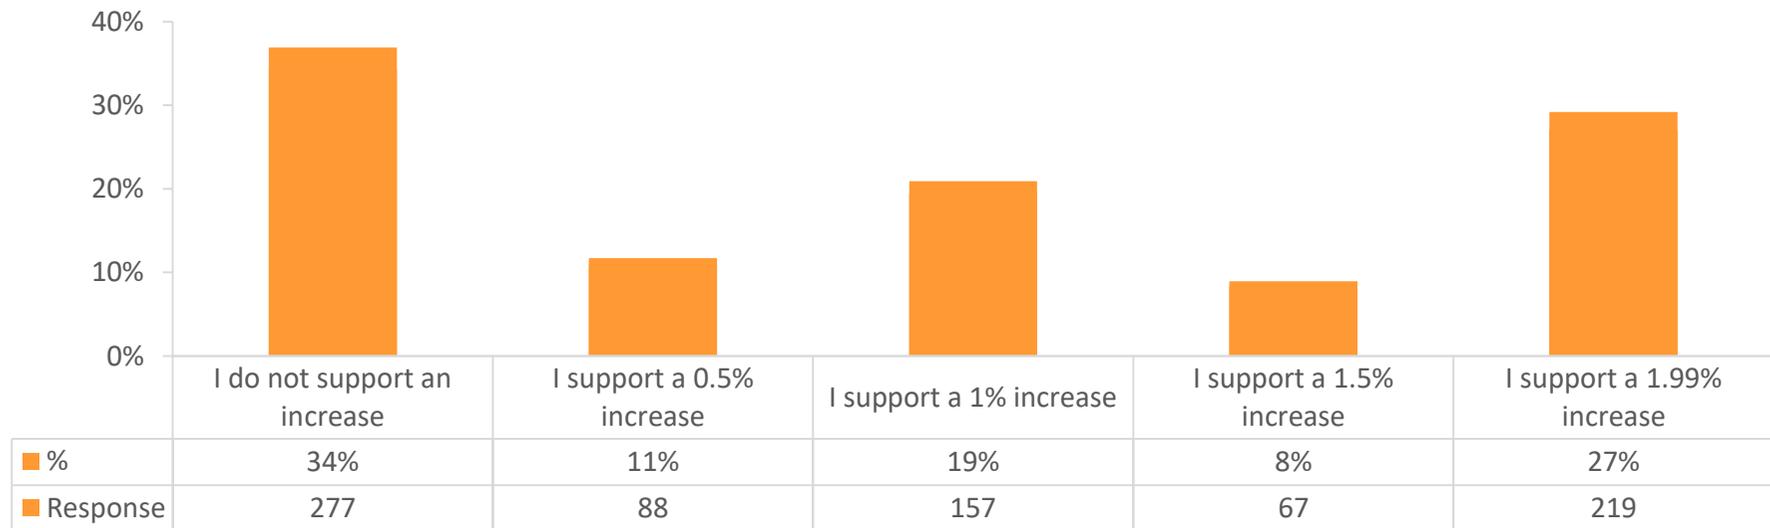

Council Tax

In order to balance the budget, would you rather we; (please tick as many as apply)

(n=415)

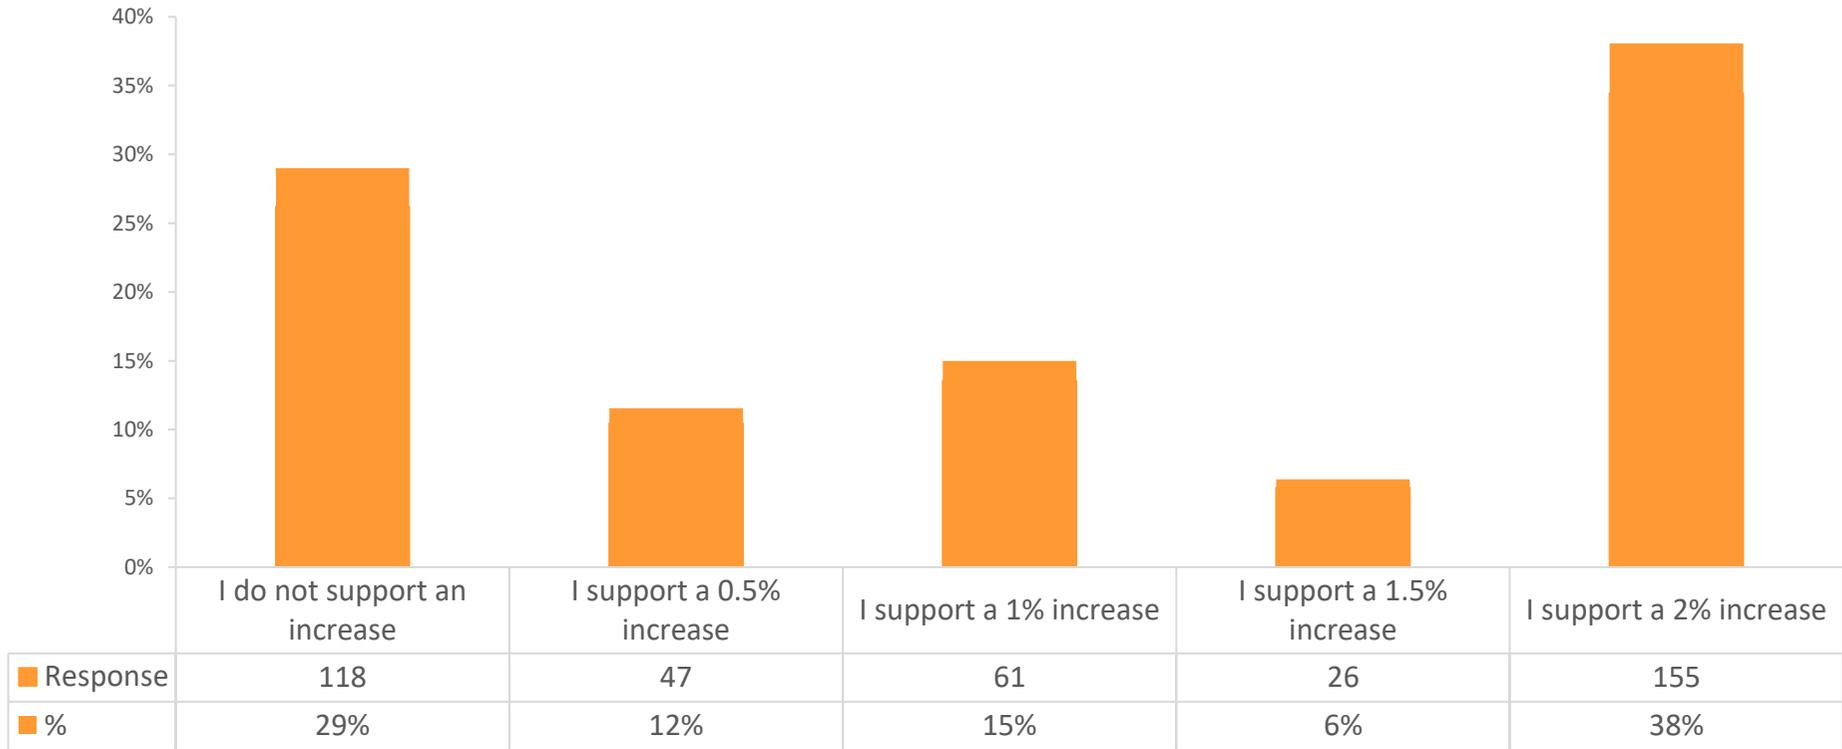

Do you support an increase in council tax to balance the budget and if so by how much?

(n=808)

Social Care Precept

Do you support an increase in funding for adult social care by social care precept and if so by how much?

(n=407)

Capital Investment

To what extent do you agree or disagree that we should prioritise the following areas for investment?

	Disagree	Disagree (%)	Agree	Agree (%)	Neither	Neither (%)
Maintenance of council houses	119	24.29%	244	49.80%	127	25.92%
Maintenance and development of highways and infrastructure assets	46	9.31%	396	80.16%	52	10.53%
Maintenance and refurbishment of council premises	185	38.07%	115	23.66%	186	38.27%
Maintenance of historic assets and facilities	71	14.46%	304	61.91%	116	23.63%
Maintenance and refurbishment of parks, play areas and libraries	46	9.37%	371	75.56%	74	15.07%
Maintenance and development of leisure facilities	96	19.75%	254	52.26%	136	27.98%
Maintenance and upkeep of schools	36	7.29%	390	78.95%	68	13.77%
Maintenance and development of IT systems to support frontline services	101	20.70%	214	43.85%	173	35.45%
Using commercial property investment to generate more income for front line services	94	19.50%	250	51.87%	138	28.63%
Various regeneration initiatives	89	18.86%	193	40.89%	190	40.25%
Flood defence measures	53	10.84%	341	69.73%	95	19.43%
Renewable energy to reduce council and city energy bills	61	12.42%	374	76.17%	56	11.41%

Capital Investment

Areas respondents agree should be priorities for investment

Maintenance and development of highways and infrastructure assets	80%
Maintenance and upkeep of schools	79%
Renewable energy to reduce council and city energy bills	76%
Maintenance and refurbishment of parks, play areas and libraries	76%
Flood defence measures	70%
Maintenance of historic assets and facilities	62%
Maintenance and development of leisure facilities	52%
Using commercial property investment to generate more income for front line services	52%
Maintenance of council houses	50%
Maintenance and development of IT systems to support frontline services	44%
Various regeneration initiatives	41%
Maintenance and refurbishment of council premises	24%

Answering this survey:

Comments on capital investment

- 1 I was interested to read of your city centre diesel car ban. I would like to make some suggestions: Petrol cars emit much more carbon dioxide than diesels. They should also be banned. It is old diesels that emit high N02 and particulates. Old taxis and buses are the worst offenders. (The most polluted street in UK is Oxford Street London, and they only allow buses and taxis). The best solution for pollution is to only allow electric taxis (battery powered) in the city centre, and introduce overhead cable supplied electric buses (trolley buses) and trams. ie Ban diesel taxis and buses.
- 2 Free, clean public toilets seem to me a hallmark of a civilised community. I have, over the last few years, seen them in a number of towns and countries. I'd like to see them in York, together with places to refill water bottles.
- 3 Invest in the people who live here! Affordable housing for those who have no choice currently but to rent privately. Stop building £250k+ flats. Invest in green spaces, community events, libraries and venues for music and food events.
- 4 Sort out the APPALLING road network
- 5 Flood defences should be top priority and free winfi for all
- 6 every time I get a pension increase it all goes to pay the council tax, all the council staff get really good pensions and pat increases, I just get poorer
- 7 Leisure facilities are great but having a Private Company running it has stopped all benefits to residents. No York Card Discount and increased prices. You obviously have to fund these but is the money well spent and used in the right way? All leisure facilities were recently closed for a day for staff training, awards presentation and a night out (that's what a member of the mananagment team told me it was for) To me this is not a good use of money, time or providing a public service.
- 8 Roads need to be upgraded and why have a cycle track when they use the road slowing traffic down and some without lights!! Fine them instead of wrist slapping. Houses should be for residents not snapped up and let off to students. All areas up to city boundaries should be resident permit parking to stop the free parking brigade who won't pay to park their cars in car parks.
- 9 No evidence that renewable energy is cheaper but all in favour of energy efficiency.
- 10 We have long needed a centralized bus hub close to the railway station
- 11 Give more information about these topics if you want to have informed opinions about capital investment from York residents. A link from this page to read a summary of issues on these topics is needed. Without this you have our biased viewpoints.
- 12 York roads need major investment. I know many people who will not apply for jobs along the ring road due to the traffic.
- 13 I have a **** that I love very much but **** lives with her husband in a **** council house and a massive garden. She has **** the council has offered to fit a lift ****. Now why can she not be moved to a Bungalow which would free up that massive house for a new family? The needs to be loads more car free social housing built where some of if not all the assists can not be sold on to the tenants like using the soon to be vacated Army Barracks. More street cleaning as I have just moved to Clifton and I ride my bike past the Hospital every day and the cycle lanes are all full of water, leaf mush and glass. Parts of the cycle way leading to James Street is in need of re tarmacing.
- 14 Do not waste money. Act like a company and fire the useless staff (i have worked for the council and filled with them but ewually some good hard workers who are grossly underpaid). Manage effectively. Dont cater for whims focus on greatest number and benefit

Comments on capital investment

15	It's difficult to tick the boxes above not knowing more about the context (what kind of repair/refurbishment might be needed etc). However investing in schools makes children feel valued, and this will be their world, so important they feel included. Also invest in flood defences, because of the misery flooding causes to individuals and also the reputation of the city for visitors, new residents and businesses which sustain the city's economy. Don't build homes on flood plains! Don't waste time even discussing it, just have a rule that you don't do it. Make sure investment is done at the right time, eg could it become cheaper/might there be improved technologies in a few years' time, so consider deferring investment for a few years. As the saying goes: a stitch in time saves nine - do effective repairs early to avoid more expensive investment later. Seriously consider the risks eg of commercial investment to minimise risk of capital losses later. Build in top quality environmental/anti-climate change measures with every investment. Work with charities eg Age UK and environmental charities which have spent on research and have lots of experience, so you base decisions on evidence-based approaches and tried and tested technologies.
16	dredge the rivers to reduce the flood risk and to save lives
17	Please stop spending on new roads. Make york a new Amsterdam or Utrecht where cars don't dominate.
18	The climate emergency is the most pressing issue and should be kept in mind all the time, also with capital investment.
19	the environmental impact of all investment should be integrated into all planning. Tree cover and green spaces must be included in LONG Term investment
20	Renewable energy and insulation efficiencies are a self funding longer term project that you need to focus on, also for the sake of the climate emergency they are vital. Soft engineering needs to be rolled out en masse within the york area as the ouse catchment river zone seems to be full of untouchable people who won't do anything to help slow down flows.
21	Stop providing for only the tourists visiting the city locals have to put up with a lot deriving from tourism and gain no benefit. Give the locals cheaper transport and event entry
22	Give the City a REAL ring road - not half of one . The traffic on the northern section / single carriageway / is horrendous ! You bought the land for a dual carriageway and chickened out for supposed cost reasons , SO do the job now and bite the expensive and even more disruptive bullet , Let's face it - all that money on the Hopgrove area just results in more standing traffic .
23	FIX OUR ROADS!! POTHOLE
24	Maintenance and development of highways and infrastructure assets in regards to handling public transport.
25	Sustainable transport infrastructure only (not for cars)
26	With UFO were a very connected city. Let's make York a smart city. There's so much clever tech out there, let's use. It's the 21st century!!
27	Let it be for the people of York's benefit, not solely the tourists. A great deal of money is spent 'within the castle walls' - spread the love a bit within York central.
28	On a basic level, many roads and streets are in poor condition. Street lighting around our area is poor. There is a common feeling abroad that the council's priorities are skewed.
29	We should explore the opportunities provided by the Social Value Act to support the voluntary and community sector, through corporate investment and development

Comments on capital investment

30	Increasing road capacity increases demand and distances people expect to travel, only moves the problem a few years down the line, do not waste money on roads, put it into public transport and cycle options
31	I work at CYC and the Finance systems are so decrepit that I waste my time and good brain doing repetitive tasks that the software can't do. I've worked in local government (not just York) for over 20 years and have seen that time and time again councils buy cheap software, then waste a fortune in man hours because the software isn't good enough. Our brains could then be used for problem solving rather than tasks a monkey could do.
32	Why borrow if you have the money not have to. This is a typical nationalised industry failing where the thinking is, you have to borrow for capital investment. Don't spend what you don't have. This is a problem for all state run business as they are not supposed to make profit. Profit is where your investment capital could come from. All you do by borrowing is push up costs to pay the banks, we still pay for the asset, but then have to pay interest payments which provide no tangible benefit. This is a waste of our money. The whole borrowing culture needs a rethink. Charge more in the first place, save up money, invest and don't pay interests. I am sure you will think I don't understand but quite the reverse is actually the truth.
33	In a country with significant water & wind available, CYC invested in solar panels. This just seems ludicrous. Whilst these are useful in the summer, they are useless in the winter. Additionally, you only have them on larger properties. You also need to refurbish these regularly & we, as tenants, have received several letters over the past year saying you haven't had the panels serviced in too long a time. If you do not service them, they will breakdown. Put small windmills at the bottom of everyone's gardens, to generate electricity during the winter months also.
34	My main concern is the planned 5G rollout. EMF radiation is linked to many physical and mental health issues and 5G is expected to create a huge increase in these issues. There should be NO capital investment by CYC on anything to do with 5G.
35	Council housing desperately needed and current buildings need updating
36	The roads are awful in York and need improving, not just in the centre for the tourists but city wide for the residents.
37	Renewable electricity is a good investment now and, if placed well could support the low carbon heating schemes that will be necessary if this city is to become carbon neutral by 2030.
38	York City Council need to do something about maintaining the drainage in rural villages.
39	It's all ****, and the sad thing about it is, you all know it is. It all revolves around how much a year you get paid. People are GREEDY, and you reading this is one of those people, shame on you, sleep well.
40	Maintenance plays a strong part in people's mental health. A well-maintained and clean environment leads to better mental health and a feeling of community. I would pick all these areas as strongly agree but I have prioritised
41	No
42	No.
43	Sustainability is key. Ethics are needed for the benefit of the people you serve
44	Improve ring road and park and ride, but restrict traffic on inner ring road.
45	Too many of the councils proposed investments are based on overestimates of demand and underestimates of capital and running costs
46	Better digitisation and visibility of bus networks. The timetable never matches the bus times.

Comments on capital investment

47	The Guildhall funding shouldn't be paid by tax payers. Citizens of York have little access to it. The outer ring road project is all wrong and will become a expensive failure due to traffic increasing to fill the space created. Putting roundabouts onto a duel carriageway will still cause traffic flow problems. Flyovers should have been considered.
48	Stop wasting taxpayers money on vanity projects and leave redevelopment to the private sector to bear the risk. Stop buying expensive properties in York and run the existing portfolio more efficiently. Get Council staff sick leave down - its a national disgrace
49	It is obvious that you cannot spend more on everything but if you make York a leader in environment protection, that is the focus for the whole World in the next 15 years. Stop calling it a cycling city unless you mean it. Make proper cycling lanes. Stop inviting when and stag nights in. Change to a cosmopolitan street life City. Protect the people by investing in hi tech CCTV linked to police control with analytics to improve outcomes
50	York central has had a lot of money spent on flood defenses, yet outer York has had none. Can you please be diary and make sure ALL of York has money spent on flood defenses. However i still beleiev that no flood defenses should have been constructed in the first place as this passes the issue of water to some where else.
51	Spend less on supporting tourist numbers, or anything that is of favours tourist related business and leisure. We have enough tourists visiting, and they are more than welcome to enjoy our city, but please, it should not be a council priority. I thought the market decided, so why help with state/local support? If support for residents and services is at the expense of tourists you need to ask yourselves what the council is for? What will you do when residents are replaced by airbnb, which is happening fast? Or charge a tourist tax which increase revenue and show residents and potential new residenst it is a city to live in, not just visit.
52	Roads Roads Roads. I've been through 3 suspension coil springs this year. The roads are atrocious and dangerous for all users.
53	Charge business for not having renewable sources of energy on site where possible - vice versa reductions in council tax for properties with renewable.energy generation on site.
54	Recent increase in council meters expenses is unjustified
55	Capital investment in transport should be focused on roads used by buses or roads with cycle lanes, along with expanding the network of cycle routes across the city.
56	Little has actually being none by the council and the Constant Disagreements between councillors and the never ending hiking of costs from lower bidders that win and UP goes the Pricing. Then we hear statements from Advisers that bend over backwards to PLEASE the Council and not residents concerns
57	I have participated in this survey knowing full well it will be a utter waste of time as York Council will not take the slightest bit of notice as I am only a resident and not a student or a drunk hen or stag let's face they are your priorities!
58	Invest in a future where we are all less dependant on the car. Quality public transport and integration of modes as first steps, then start reducing car inevitability. Invest in schools so children can learn in a sound and quality environment that promotes well being.
59	There should put park line on end of the street because the park there block view road
60	The condition of York's roads are unacceptable and demand substantial and immediate investment. Stop spending money on unnecessary traffic signal replacements which are also leading to the dangerous situation whereby pedestrians are not sure when it is safe to cross the road.

Comments on capital investment

- 61 The best buy investments must either provide a good return or reduce costs. The council can act as an anchor investor unlocking further investment, this should be deployed strategically. The rush of private investment on Toft Green after West Offices was redeveloped seems to have happened organically and it is not clear there is any strategy behind this or that the council is capturing any of the gains to benefit frontline services and local people, in spite of being a significant driver and enabler of all this added value. There is a lesson there for the future. On a related note the huge changes around foss islands could do with a master plan and council involvement, as the developments are following the previous light industrial footprints they are copying the past and being car dominated. Council involvement through site acquisition and involvement in masterplanning to help create a stunning new quarter.
- 62 Improve cycling in York. York is flat and should be a pleasant city to cycle in. The cycle paths currently are an embarrassment. Some roads in York are narrow but there are obvious roads with space where there is not anything resembling a safe bike lane. The obvious examples being Clifton and Tadcaster Road.
- 63 flooding outside york itself, ie surrounding villages get forgotten
- 64 The local plan proposal to build the village of HolmeHill in the south east of york must be approved to provide local people a village enviroment to live . Anouther outer ringroad must be put in place so traffice can bypass york instead of being forced aling the present one york hasto expand further in to the countryside to provide a better enviroment for the future of our residents
- 65 All investment should be as green as possible.
- 66 We are getting less as your council budget is cut = no more money for my council tax.
- 67 I completely forgot about the floods, we should invest in infrastructural defences. The main problems with York we should focus on: 1) The environment and a disfunctional bus service 2) GPs and the Hospital 3) Housing prices 4) Train prices (I know that's central gvt but the rail fares are out of control) 5) The drinking culture here 6) Flood defence Thank you for this, glad to have my voice heard.
- 68 Capital investment should be focused on reducing the financial burdens of the council and improving the existing structures of life for the people at the bottom of the ladder so that they may stand half a chance to provide a better future for everyone. Children in inadequate housing are shown to perform at a lower level than their peers, this includes simple things like having enough space to live in, play in, and work in. Lots of council houses are rated at having enough room for 6 people when in reality one of the rooms is barely big enough for a baby's room and there is no way two children could share it which leaves the family cramped in a house declared fit for purpose. Therefore, capital investments should be used to remedy these issues so that the next generation can thrive. Life is not just about aging, it's about growing and in York, the children are often forgotten in favour of the "aging population" and their needs are considered last.

Comments on capital investment

69	Highways needs serious investment to rectify potholes that have been an issue in this city for as long as I can remember, currently being treated with a semi permanent solution instead of fully fixing them. Investing in digital services to relieve pressure on frontline staff to allow them to be allocated to residents that genuinely need face to face contact. This needs to be communicated to residents better as during existing consultations many residents fear that all services will be moved online and this will marginalise people that do not have access to the internet. York is an extremely expensive place to live for first time buyers, 'affordable' housing in York is not inline with current wage stagnation. Council housing should be priority in allowing younger residents the opportunity to even have shared ownership of a property to allow them to be on the property ladder. A 2 bedroom house in the new Fulford Germany Beck development is priced at £230,000+, is the best York can provide for new families buying a new property?
70	What are the regeneration initiatives?
71	Develop cycling instead.
72	When considering investment in commercial property, also consider your responsibilities for long term viability of rents for prospective tenants. Do not always look for the highest rental Return and encourage younger developing businesses who may bring additional diversity to areas of the City.
73	Developing cycle routes into rural areas of York
74	Reduce car parking expenses in york to regenerate high street or consider some times i.e thurs am or certain down peak times for residents to park free to boost high street city centre
75	Projects that have a negative impact on climate change, biodiversity or air quality should not be supported.
76	Early years need more funding - with the importance of a child's early years we do not have enough funding to maintain high quality care and education for these children.
77	Spend more on road safety and traffic calming. York roads are dangerous and traffic travels too fast. More spend on flood defences and stop building plastic football pitches everywhere.
78	This council struggles to provide the basics! Collect general rubbish weekly or recycle more products. Make food shops/restaurants donate their 'that day expired' products to food banks. Create apprenticeships, put young and old together programs that are mutually beneficial, and have a greater care for residents who often feel ignored or pushed to the side of tourism. Many residents create tourism, with visitors coming to see family/friends living in York so it is in the council's best interest to keep residents satisfied, at least!
79	I would like to see my council make money and invest in a good future for its constituents. a prime example is Neoen French renewable energy company. ""A 400-page document filed in support of the application shows the battery, which is the largest lithium-ion battery in the world, had a capital cost of €56m or A\$90.6m and generated €8.1m, or A\$13.1m, in revenue from network services in the six months to 30 June 2018"" Please see https://www.theguardian.com/technology/2018/sep/27/south-australias-tesla-battery-on-track-to-make-back-a-third-of-cost-in-a-year
80	We should make homes and sell them for how much it costs to make them. Let's help homelessness and let's stop supporting funding for luxury apartments built just for profit!

Comments on capital investment

81	York is a destination and it's cultural objects and buildings bring billions into the local economy. Support attraction and heritage development to help our city thrive!
82	You have to prioritise on the people of York and not just the tourists, build infrastructure so they park outside the city and use park and ride to come in to limit coaches in the city. Think about licensing laws to limit the drain in resources that the drunken visitors have to the city. Limit the student take over of the city centre areas and this includes housing, let's make rents and council tax fair and affordable based on the wages locals earn. This may bring locals back into the city and revive the high street (which is not a pleasant place for locals to be the majority of the time I'm afraid). Let's get some decent transport routes up to the new stadium, increase the number 12 to serve the area. Let's have more joined up thinking, let's not send money back to Westminster due to poor planning. Let's get a congestion charge in to encourage less cars in the centre and get public transport flowing and then people will use it more. Let's invest in building a community again rather than just tourists and students focus, whilst I realise this generates revenue it isn't a real benefit the majority of people of the city I'm afraid
83	Repair current roads but don't develop further highways to encourage car use.
84	No expenditure on new roads, including dualling of existing roads
85	YORK is a city with an international reputation yet its core areas suffer from poor paving and road quality compared with many similar cities in Europe. Parts of the central area look neglected and after rain are often full of large puddles due to inadequate drainage. King's Square, Grape Lane and Swinegate show what can be done. Petergate shows what needs to be done. If York isn't pretty then it is nothing.
86	Certainly road maintenance, but NOT road development, e.g the outer ring road - the focus should be on reducing dangerous and destructive private car use, and supporting viable alternatives.
87	Invest to save.
88	Make sure when something is planned that it does not cost a fortune because it is badly planned. Community Stadium mismanagement must have cost a lot of money that could have gone into something more useful. I am not sure you really understand what people want or need. Charge all houses rates including student houses - this would vastly increase your income.
89	We need to focus on what works rather than what looks good... Libraries are key community assets and create and support communities Early years provision makes a huge difference particularly to disadvantaged and harder to reach families The arts and sport develop key life skills, make people happy and create diverse and positive community groups
90	The council should accept that the private sector is best placed to provide some services that require capital such as leisure centres. How can we consider "various regeneration initiatives" - there is insufficient information, hence I marked it as strongly disagree
91	Have a big vision, invest heavily in cycling infrastructure and make York a leader and distinctive in the UK in being a true 'Amsterdam' cycle city. Big bold and don't pander to the vocal minority
92	investing in cycling and walking infrastructure Building more social housing for rent (Passivhaus or zero-carbon) Set up a Council Energy Company and invest in insulation and renewables programmes to improve council and private sector housing
93	If school maintenance needs more money this should come direct from central gov't. Aren't most schools academies now anyway? Flood defence money is mainly environment agency not local council too?

Comments on capital investment

94	I think York council should look at local environmental investment in and around York that will help fight climate change and alleviate flooding such as the restoration of North Yorkshire Moors peat bogs.
95	'Various regeneration initiatives' - means what? To most people, most of these things will be important investments so I'm unsure what you'll learn. It would have been better to ask for people to rank these from most to least important or score them? Also, it's like comparing apples and pears, without knowing the impact of the investments it's hard to give an informed response
96	We need to put environment first by reducing traffic into the centre, continue to increase public transport option in the evening and weekends and ensuring public transport is affordable for young people.
97	These are really too vague as depends on what is being done. For example I would strongly support highways infrastructure for cycling, walking and public transport but not for cars
98	Stop focusing on the city centre. Maintain the drainage systems in the rural villages
99	More green investment
100	No borrowing should be allowed! It cripples the city with interest payments and indicates extremely poor financial management

Please tell us what you think we should be spending more on - Good Health and Wellbeing

- 1 Creating green spaces and planting trees. Education
- 2 physical health
- 3 There is a major problem with street busking in the city. Noise pollution should not be accepted, it should be treated like any other environmental pollution. Buskers need to be regulated or ideally banned from the city centre. Few have any talent and use powered amplifiers to impose their noise on people. It is neither entertaining or in keeping with the atmosphere of the city
- 4 Mental health services
- 5 GP surgeries, primary care facilities, mental health facilities
- 6 Mental Health
- 7 Affordable housing for LOCALS
- 8 Lowering air pollution in the city centre by improving public transport. Social care for the elderly. Council rented housing.
- 9 reducing traffic pollution
- 10 Easily accessible and sports facilities.
- 11 Encouraging children to take up exercise, eat healthy and not smoke
- 12 Promoting physical activity
- 13 housing
- 14 Roads and buses
- 15 SUPPORTING YOUNG PEOPLE FROM YORK TO TRAIN AS DOCTORS, NURSES
- 16 Physical health
- 17 mental health, quality of environment including air pollution
- 18 the same
- 19 Social care and mental health
- 20 Cycling
- 21 Environmental
- 22 Green spaces.
- 23 Social housing from the waiting list
- 24 housing
- 25 Good quality housing - council and private
- 26 Care for elderly, disabled and poorer households, invest in more recycling schemes eg different plastics and terra pack which cannot be recycled in York.
- 27 Cutting air pollution, safe spaces and activities for kids, teens
- 28 Mental health support services (shorter waiting lists)
- 29 Housing
- 30 Roads

Please tell us what you think we should be spending less on - Good Health and Wellbeing

- 132 Support for adults with mental health conditions, but who are high functioning
- 133 Support services
- 134 Communities

Please tell us what you think we should be spending more on - Well-paid jobs and an inclusive economy

- 1 Education about plastic pollution/recycling/fly tipping/littering.
- 2 employment opportunities NOT tourism jobs
- 3 Ensuring a number of options for childcare are available to all, not just one company which seems to have a growing monopoly on childcare.
- 4 Public transport, out of school programmes, young peoples' clubs
- 5 Education
- 6 parking infrastructures
- 7 Providing parking NEAR to city centre
- 8 Adult training/education. Restricting air bnb to promote locally owned and staffed hotels
- 9 More environmentally friendly public transport
- 10 Attracting higher paid jobs to city
- 11 Adult education and training
- 12 transport
- 13 transport
- 14 Trainee position s
- 15 AREA STATIONS, THEN WE WOULD NOT NEED TO DRIVE TO GET TRAINS
- 16 Education
- 17 education (including adult), more diverse employers
- 18 the same
- 19 Education
- 20 None
- 21 Apprenticeships for young people
- 22 Zero hour contract employ staff
- 23 a living wage
- 24 Schools and training opportunities. Evening classes
- 25 Education and development for young people and people returning to work.
- 26 Make business rates for small independent shops more affordable in city centre by charging high street chains more. Support the shambles market, run big events like St Nicholas fayre in house not by external company.
- 27 Transport (ring road around York needs to be a dual carriage way! Impossible to travel)
- 28 Education
- 29 Roads. Bins. Not just attracting bars and restaurants
- 30 Environmental factors - lead on climate change initiatives
- 31 encouraging ambition in the young
- 32 Education

Please tell us what you think we should be spending more on - Well-paid jobs and an inclusive economy

33	Education
34	Reducing the cost of parking
35	The city centre
36	Green work environments (reduced stress)
37	education
38	Keeping EXISTING shopping streets alive and expanding ones in villages and suburbs so people don't have to use online imported rubbish (cleanliness/flowers.pop-up shops etc). Start up a York pound scheme to encourage local spending and pay Council workers some of their wage in it.
39	Local transport around the city
40	About right
41	public transport / cycle / walking links to areas with jobs
42	Employment Opportunities, economy
43	Access to later learning
44	Education
45	good public secondary school places
46	attracting big companies to open offices in the city centre, to bring decent well paid jobs, improve transport links to outskirts of the city so people can get to the employers based there
47	Maximising benefits of apprenticeship levy
48	encouraging strong employers to the city
49	Education
50	Local economy
51	Attracting big engineering firms
52	employment opportunities
53	Roads
54	Invigorating retail units central York
55	Roads
56	Education & transport. All children should have the same level of education as that delivered in public schools & parents need to be expected to support schools.
57	Education and employment
58	Transport, higher pay.
59	Supporting SMEs
60	Public transport
61	Skills development

142	transport
143	Lowering transport costs, employment opportunities
144	Education classes for adults, lower bus fares
145	employment opportunities
146	Green and circular economy
147	primary schools more free meals - free fruit etc
148	transport
149	Public transport
150	Education and skills
151	Creating technology jobs
152	education and skills
153	Accessible jobs
154	Economy
155	Transport for the elderly.
156	Supporting disabled people in work
157	People who are genuine
158	Transport
159	early education and creative skills for life

Budget Consultation 2020/21

Please tell us what you think we should be spending more on - Well-paid jobs and an inclusive economy

160	Ppreparing young people towork
161	Strengthening paid carers employment to attract more quality carers
162	diversification of employment - we need stop depending on the tourist economy which only provide low paid jobs
163	oesn't need spending but encouraging appropriate inward investment - a focussed Local Paln and making ir easier for some developments and
164	Education
165	supporting people to access work
166	encouraging apprenticeships for young people
167	Promoting/providing free courses which can help people get employed.
168	transport
169	Employment opportunities
170	supporting local independent trade
171	coordinating provision to avoid duplication, aligning curriculum to labour market information and more inclusive employment opportunities
172	Didgital poverty, local people though a tourist tax
173	easily accessible and affordable office spaces linked with any new housing developments and transport
174	Supporting small business
175	EDUCATION AND SKILLS
176	Better pay for support staff in education
177	Education, careers support.
178	Attracting large employers to York, expand upper ring road to two lanes, ban cars in town, more cycle friendly routes
179	Helping people to get a job, increase jobs in York
180	Ensuring everyone is paid the living wage as a minimum
181	attracting the right kind of investment; supporting advice services
182	Encouraging organisations in York to pay the real living wage, encouraging businesses to operate in York
183	Training and transport
184	Transport

Please tell us what you think we should be spending less on - Well-paid jobs and an inclusive economy

- 1 transport
- 2 Councils do not create wealth and jobs, the private sector does. Money should not be spent on this
- 3 Council members pay, bonuses, road closures and repairs
- 4 Transport
- 5 restrictive transport measures to stop car freedom
- 6 Traffic wardens
- 7 Allowing student flats to be developed.
- 8 tourist attractions; council salaries
- 9 Your own salaries
- 10 Nothing - most important area of spend
- 11 employment opportunities
- 12 International employee s
- 13 LOCAL AREA CO-ORDINATERS
- 14 Economy
- 15 None
- 16 Senior manager pay at the city council including chief exec, directors, assistant directors.
- 17 Job fares
- 18 Vanity projects.
- 19 Economy
- 20 Bureaucracy
- 21 Out of town shopping
- 22 council transparency
- 23 Giving 'incentives' (tax cuts) to big companies so they employ one person here rather than in Leeds. Stop YORK BID procuring services from outside York e.g. 'Forge'.
- 24 families with 12 children
- 25 Transport, hampering good traffic flow
- 26 Alcohol tourism
- 27 building luxury apartments in the city centre

95	Motor transport
96	Make it York
97	employment opportunities
98	NA

Please tell us what you think we should be spending less on - Well-paid jobs and an inclusive economy

99	Nothing
100	Transport for tourist.
101	Apprenticeships- they aren't paid enough
102	People who are not willing to do anything.
103	tourism
104	Grants to tech businesses
105	adult education that is not essential (eg crafts etc)- higher charges for those with funds to pay
106	Transport
107	make it york
108	YES
109	Make it York
110	Unnecessary salaries within the council
111	more out of town retail (and car dependant retail)
112	Events and festivals
113	Everything
114	TRANSPORT
115	low level enterprise/readyness for work schemes that provide little benefit.
116	Spend less time and pressure on GCSEs
117	Banning use of city centre roads would save money on road upkeep as this would need to be done less frequently
118	Advertising
119	Funding charitable trusts
120	Advertising!

Please tell us what you think we should be spending more on - Getting around sustainably

- 1 Reduced public transport
- 2 Mending potholes properly. Keep hedgerows trimmed by paths.
- 3 cycle pathways
- 4 Providing reliable bus services which run at times required by the users. I.e. A late bus back to park and ride sites
- 5 Cycling
- 6 Electric buses, subsidised bus travel, bike share schemes
- 7 Pavements and roads
- 8 parking
- 9 Dodgy pavements
- 10 Improving infrastructure around train station to reduce congestion.
- 11 opening up closed roads; widening existing ones, installing 'red routes' to stop stationary traffic ;
- 12 Hybrid bus network
- 13 Sorting the traffic lights so city runs smoothly
- 14 Removing barriers to walking
- 15 cycle pathways
- 16 transport
- 17 Flood defences flood relief systems
- 18 AREA STATIONS, THEN WE WOULD NOT NEED TO DRIVE TO GET TRAINS
- 19 Transport
- 20 pavements, segregation of cycle from pedestrian traffic, air quality
- 21 the same
- 22 Traffic management that keeps the city moving
- 23 Cycling
- 24 Free bus pass for over 60s
- 25 Pathways and cycle routes. Public transport.
- 26 Roads pot holes are a danger to cyclists
- 27 Maintenance of cycle paths and repair of potholes. A good bus service, more integrated with the railway. Continue looking at opening up local rail services
- 28 Cycle paths in and around York and speed calming measures in residential and pedestrian areas.
- 29 Proper cycling, not just white lines on roads. Promote sharing of roads for everyone and pavements for cyclists and pedestrians where possible.
- 30 Improving conditions around station. Joining up bits of cycle infrastructure and more contraflow bike access through centre. Electric buses.
- 31 Roads around York. More roads, too many people for the amount of roads in York.
- 32 Cycling and the cycling infrastructure on the roads

Please tell us what you think we should be spending more on - Getting around sustainably

33	Sustainable transport
34	Get all the Next Bus screens working!
35	ban cars from within the city walls
36	Pavements and roads
37	Outer ring road dualling
38	public transport especially electric buses
39	Walking and cycling infrastructure
40	Safe cycle pathways everywhere
41	bus services
42	Safe walking and expanded cycling paths, free guides to them all available across the town, encourage green tourism with train station promotion of public transport. REPLACE the bus times TV schedule in York train station (which is now just a bracket) asap. Stop privatising bus services and run them locally at cost price. I know fixing roads is expensive but as a cyclist I can say some potholes are dangerous out there at the edge of the road.
43	Bus pass for over 60 year old plus reduce bus fare in order people use less cars £1 fare would be popular like many uk cities
44	repairing pavements and roads.
45	potholes and get rid of road bumps - as you are now obliged to do
46	proper cycle paths (not just painted along a road), park and ride, ring road (to discourage drivers coming through York instead of around!)
47	Making it easier to move around the city
48	green public transport
49	cycling initiatives and footpath improvements, closing roads to cars, planning sustainable neighborhoods, improving public transport
50	Walking, public transport
51	Improve pavement and road conditions
52	Safe cycling routes and community green spaces
53	improve the public transport network, contract a more reliable bus company, repair the pavements in the city centre
54	Cycle paths so the network connects up providing safer network - new earswick to haxby road for example
55	Enabling less city centre traffic. More encouragement to walk or cycle. Too many single person journeys. We live at junction of Water End/Salisbury Rd and traffic and air pollution terrible
56	Road maintenance, repairs and trials of new tech in this area
57	Cycling, buses should have central control
58	free or cheaper buses to ease congestion
59	Free buses
60	Roads
61	Environment factors

Please tell us what you think we should be spending more on - Getting around sustainably

62	Road maintenance
63	Roads - repairing existing!
64	Roads
65	Rail transport and pedestrianised areas
66	Non of this
67	Parking for the Disabled in the city centre & repairing roads and footpaths.
68	Improving potholes in roads and paths
69	Rail
70	Safe cycle routes - avoiding both traffic and pedestrians where possible.
71	Filling potholes
72	Improving the flow of all traffic
73	Road and footpath maintenance
74	Environmental factors
75	Free parking for residents
76	TRANSPORT
77	pedestrianisation of the city centre
78	Recycling and cycle lanes (think Cambridge)
79	policing the carbon free/low
80	York is a city on a human scale.!!! How many York residents, proper residents use rail for example, only to go to Scarborough for a day out in summer. Try repairing the roads that 94.83 use every day !! *** the Rail network.
81	Walk and cycle lanes
82	improving the outer ring road then develop quick easy mass transit in to the city centre (ultimately restricting all motorised traffic to the city centre)
83	Road safety eg interactive speed signs
84	Pavement and roads
85	road repair in residentail streets
86	roads; bus services
87	Road and pavements
88	Transport
89	foot paths. We could walk to Clifton Moor but there is no footpath and the road is far to busy to walk safely and within Wigginton there are also places where there is no footpath and while I do not ride a bike I will happily walk on safe paths
90	Cycle pathways
91	Roads and Pavements

Please tell us what you think we should be spending more on - Getting around sustainably

92	Getting a decent and reliable bus service. Open the city to other bus companies than first
93	Pedestrian only areas.
94	Highways and footpaths
95	Opening or laying a new road near the hospital
96	Bus and rail transport
97	Transport - electric buses
98	Transport infrastructure
99	Better cycle lanes and a more reliable bus network
100	Cycle paths and lanes
101	transport
102	Pavements and Roads
103	Pedestrian only areas in centre
104	Cycling
105	Enforcing red lights and footpaths broken by cyclists and get rid of bendy buses
106	Cycle paths
107	road network, provide easier one way systems
108	transport
109	Roads
110	Public transport to outlying areas of the City
111	cycle pathways
112	transport
113	Investment in cycling pathways and green public transport
114	Areas gridlocked currently that won't change in the short term - A1237 & A64. More smart traffic light systems.
115	Fixing roads and pavements
116	Nothing
117	Roads and gulley cleaning
118	Cycle paths and cycle lanes
119	Pavements
120	Repairs to pavements many of which are dangerous
121	Infrastructure
122	Fixing potholes, regular buses
123	Pot holes, pavements roadworks
124	Roads, cycle pathways and transport

Please tell us what you think we should be spending more on - Getting around sustainably

125	public transport
126	Pavements and roads
127	Transport integration,
128	cycle infrastructure
129	pavements and roads
130	Keeping our park and ride services. Road maintenance is vital.
131	transport, pavements, roads
132	pavements and roads
133	cycling
134	ALL BUSES BEING ELECTRIC / GREEN, ALTERNATIVES TO DRIVING INTO CITY CENTRE BECAUSE BUSES ARE SO UNRELIABLE AND UNAFFORDABLE. 100% INCREASE IN BUS PRICE IS OUTRAGEOUS- AND MORE EXPENSIVE THAN A SINGLE JOURNEY IN LONDON ON THE TUBE.
135	Good bus services, pavement repairs and drainage Reintroduce the parkthatbike scheme. Getting people to/from the rail station safely by bike, pleasantly and safely on foot. Work with Network
136	Rail to build an accessible bridge over the railway between Scarboro' Terrace and the hospital. Make one-way roads such as Grosvenor Terrace two-way for cycles
137	Bus and cycle network - esp. bus frequency and reliability
138	maintaining what we have
139	electric buses!
140	Cycle infrastructure
141	Recycling
142	road maintenance -pot holes
143	Rail and 24 hour park and ride
144	to reduce standing traffic, reward low emission vehicles
145	Electric buses, a better bus service, cycling lanes, and pavements.
146	Roads and public transport
147	Please spend more on busses, reducing train fares and cycle lanes
148	Road improvements
149	Bus provision
150	Maintaining pavements and repairing potholes in roads
151	buses and cycle routes in rural areas
152	Secure cycle parking areas in city centre to combat theft & or cover with cctv
153	All
154	Reducing congestion by improving road layout and traffic light sequencing

Please tell us what you think we should be spending more on - Getting around sustainably

155	improving walking and cycling routes, prioritising pedestrians and cyclists, car-free areas
156	Flexible bus routes for older people
157	Making York a pedestrian city
158	council should run bus service in York /not subsidise privet comp - new green buses
159	Lower the amount of cars I. The city centre by influencing public transport use instead and make a radical commitment to making all public transport electric
160	roads
161	Pavements
162	Integrated transport planning; reducing car usage.
163	decarbonising traffic in the city centre and cycling infrastructure
164	Congestion , infrastructure for public transport
165	pavements and roads
166	roads
167	Sustainable and green transport - electric buses
168	Lower bus fares
169	public transport
170	Cycle ways and cycling support, local bus service support, car charging points
171	Active transport
172	cycle lanes that do NOT permit cars to be parked in them eg Chaloners Rd
173	pavements and roads
174	Railway station opening
175	Cycling, and related road maintenance
176	Pedestrian and cycling safety
177	city transport
178	Blimmin' pot holes and awfully rugged roads
179	Environmental factors
180	Repairs to pot holes and placements
181	Buses - we need more, and electric ones
182	Giving a good bus service and motivation for people to use it.
183	Rural Bus services
184	sustainable transport solutions, electric buses and taxis, road maintenance
185	Bus services

Please tell us what you think we should be spending more on - Getting around sustainably

186	Buses- better for accessibility- more flexible seating for wheelchairs & prams etc- more option to get closer to centre of city or dial a ride type options. Cycling routes- safer, make it easier to cycle or use bus than to drive
187	quality of pavements and roads
188	Cycling infrastructure and public transport
189	Cycle lanes, more places to park bikes etc
190	invest in free public transport.
191	cycle lanes
192	YES
193	Footpaths and cycle lanes, ring road improvements. Open the forthcoming bus-route through the Nestle site to all traffic. Tram/train at Haxby/Strensall etc.
194	Improving/reducing cost of public transport so people can afford to travel around the city. Improved, safer cycle routes
195	cycle paths
196	Environmental factors
197	subsidising e-bikes and proper segregated cycling infrastructure
198	adopting/ promoting greener transport whilst easing congestion
199	More pavement repairs, more off road cycle lanes, improved priority to cyclists coming to centre, clearly marked cycle routes through paved centre, more bus lanes, remove bendy buses they are dangerous to cyclists, reduction in city centre parking.
200	provision for cycling- good quality and joined up cycle routes protected from cars where possible and going priority to cycling and pedestrians every where. electric buses from park and ride and support increase of car clubs using small electric cars or vehicles
201	Buses
202	Pot Holes drainage ditches
203	PAVEMENTS AND ROADS
204	cycle lanes and paths. Sort the out ring road out to help prevent traffic being forced into city center to get around
205	Sustainable energy solutions in transport
206	accessible transport for those with hidden disabilities (autism/adhd)
207	Ban cars from town centre, create low emissions zone, more electric buses
208	Improved cycling routes!!!! Currently lack this and unsafe!!!
209	Making roads more cyclist friendly, promoting more people to cycle/use public transport, improving the bus systems in York and keeping them affordable for all
210	supporting digital availability to all
211	Cycle paths, pedestrian paths, buses, public transport, improving air quality
212	Roads and better transportation services
213	Roads

214 Roads and paths - they are in a dreadful state.

Please tell us what you think we should be spending less on - Getting around sustainably

- 1 Cycling
- 2 environm,ental factors
- 3 Roads
- 4 Road repairs, petrol vehicles
- 5 Environmental Factors
- 6 environmental restrictions
- 7 cycle routes that are inevitably underused
- 8 Your own salaries
- 9 Subsidies to filthy buses
- 10 Car parks
- 11 environmental factors
- 12 cycle pathways
- 13 Parks
- 14 LOCAL AREA CO-ORDINATERS
- 15 Cycle pathways
- 16 road and car infrstructure
- 17 Traffic lights holding people up
- 18 Cycle pathways they don't use them
- 19 New roads.
- 20 Facilitating cars
- 21 Pavements.
- 22 Cars and parking for cars
- 23 Subsidising private companies
- 24 Cycle pathways
- 25 Bureaucracy
- 26 cycle lanes
- 27 Private car support such as roads and car parking
- 28 Roads for cars
- 29 ring road dual carageways
- 30 Privatising bus services.
- 31 Tourist attractions
- 32 cycle routes
- 33 cyclists & push for them to be insured for the damage they cause !

Please tell us what you think we should be spending less on - Getting around sustainably

34	cycle ways that don't get used
35	any automobile infrastructure! Cars are the past, not the future, they should be abolished wherever possible.
36	Cycling
37	Useless cycle lanes, York's too small to support it all. Accept that
38	Housing projects that will only increase congestion
39	Park and ride that benefits tourists and not residents
40	Resurfacing Stonegate. Not necessary. Too many residential roads in dire straits.
41	Ward funding in this area - it hampers truly strategic planning
42	building homes with parking spaces in the centre or we'll have more congestion
43	Cycle ways they don't use them
44	Cycle paths
45	Cycle Pathways (further additions and schemes without a clear benefit).
46	Traffic Lights
47	Cycle pathways
48	This
49	Creating new cycleways
50	Painting old sheds not fit for purpose in our communal areas
51	Roads
52	Infrastructure for private cars.
53	Subsidies for bus companies
54	Recycling
55	Waste of time & money cycle tracks
56	CYCLE PATHWAYS
57	facilitating cars into the city centre
58	Subsidising non means tested transport discounts
59	transport
60	Ensuring York rich get their train in time.
61	Non environmental transport
62	Cycle paths
63	city centre
64	cycle lanes that narrow roads too much and actually make it dangerous for drivers as people actually need to use cars sometimes.
65	Cycle Pathways
66	Subsidising the monopoly that is First.

Please tell us what you think we should be spending less on - Getting around sustainably

67	Road repairs.
68	Cycle networks
69	Allowing cars in the city
70	Subsidising First York. Infrastructure for cyclists. We already have vast amounts of perfectly fine roads and cyclepaths to ride on.
71	Major flawed road projects
72	Cycle Pathways
73	Bus companies
74	Stone paving
75	Council vanity projects
76	park and ride funding
77	Cycle pathways
78	cycle pathways
79	Constantly upgrading town centre pavements
80	Reduce in all areas
81	Environmental factors
82	Roads without cycle lanes
83	Repairing routes not used much
84	Ill considered road schemes
85	Councillors Pay
86	Cycle paths
87	Councillors stipends
88	Pavements
89	Cycle pathways
90	Car provision
91	park and ride
92	cycle pathways and environmental factors
93	environmental factors
94	transport
95	roads
96	Facilities for cyclists
97	Things that make using the car the easiest option
98	Effectively subsidising car ownership with free on street parking on council owned roads - city wide permit scheme would help this
99	bodging holes

Please tell us what you think we should be spending less on - Getting around sustainably

100	traffic lights and speed humps that reduce traffic flow
101	New roads or road alternations for private car use (especially involving the loss of trees, hedges or other carbon sinks).
102	Cars, parking spaces, things to do with cars
103	Cycle lanes on roads
104	Consultants and "tinkering" with road "improvements" e.g £250000 to save 12 seconds on bus routes past York hospital. They do not work.
105	providing city centre car parking
106	cycle paths (good infrastructure already)
107	providing parking spaces for cars
108	Traffic light upgrades
109	Ken Livingston's failed bendy buses which are entirely ridiculous in town
110	cycling
111	Cycle pathways
112	council meeting biscuits
113	cycle pathways
114	cycle pathways on roads - separate
115	Cycle lanes - no one uses them properly anyway
116	Car parks
117	Roads and parking
118	car parking spaces
119	environmental factors
120	Roads
121	New roads
122	Potholes
123	none
124	Cutting grass (let's rewild!)
125	Nothing
126	Cycle paths
127	Roads
128	Traffic lights
129	Schemes that are not productive.
130	Cycle pathways
131	roundabout improvements
132	Green issues

Please tell us what you think we should be spending less on - Getting around sustainably

133	parking- automatic systems preventing need for parking attendants in car parks. In times where money is tight, maintinging only roads where dangerous not to- leave pot holes longer etc
134	traffic management
135	Out of teown developments and makling it easier for car drivers
136	Divert the £100m+ to be spent on the outer ring road to sustainable / green transport
137	Ringroad 'improvements', Wetherby Road roundabout hasn't made a difference to traffic.
138	car parks
139	anything to do with pollution and CO2 producing vehicles
140	Cycle routes
141	CYCLE PATHWAYS
142	park and ride
143	Stop increasing parking, bus fares, train fares. stop uber being here
144	Road infrastucture for car users
145	vehicle electric charging points
146	Environmental
147	Road closures, blocking, speed humps, calming. They all increase congestion and pollution

Please tell us what you think we should be spending more on - A better start for children and young people

- 1 green spaces
- 2 Support for families who require additional help
- 3 Out of school clubs, community gardens, environmental education
- 4 Education
- 5 Careers services and access to higher education
- 6 Child social security
- 7 Nothing - appropriately funded
- 8 education
- 9 Sustaining swimming pools in school s
- 10 Education
- 11 education, out-of-school activities
- 12 the same
- 13 Education, green spaces
- 14 Green public places
- 15 Green spaces for all.
- 16 Parks youth clubs
- 17 Maintenance of parks and libraries and provision of additional facilities. Better subsidies for nurseries and pre-schools
- 18 Outdoor pursuit opportunities for all school children in York (if this is not already available). Coventry council run a scheme since 1966 that is a reference https://www.coventry.gov.uk/info/139/services_for_schools/665/plas_dol-y-moch
- 19 Apprenticeships and education
- 20 Support Services
- 21 Support for pregnant women for childbirth and early years so children can start school ready to learn rather than teachers having to teach things the parents should cover, like toilet training, sharing, socialising, early numeracy etc
- 22 educating young parents on benefits about food
- 23 Education
- 24 Education
- 25 Schools
- 26 early years education
- 27 Sports facilities, green spaces
- 28 Green spaces to enjoy and learn about nature
- 29 sure start like programmes
- 30 Keeping as many parks open as possible, and expanding them if possible. We can't just build on all the so-called brownfield sites in York, these need to be left as many of them are open grassland and important for people's wellbeing, including children playing.

Please tell us what you think we should be spending more on - A better start for children and young people

31	Youth clubs
32	Teachers and reducing class sizes
33	EDUCATION
34	parks, outside activities
35	Green and public spaces
36	green spaces
37	Youth services public space
38	Community projects
39	outdoor parks for children, funding nursery places to be more affordable
40	More green open spaces available for schools to use
41	Parks, green spaces
42	Maximising cultural and learning opportunities for young people in deprived areas
43	Addressing child poverty
44	youth clubs
45	Support in schools and youth clubs
46	Green public spaces
47	Police
48	education
49	Cutting the grass on public spaces
50	Green spaces
51	Cutting the grass in public spaces
52	Education & ensuring that an expectation is placed upon parents to support the schools. Smaller classes
53	Community youth centres and parks
54	Education
55	Air quality improvement.
56	Teenage support
57	Parks and recreation spaces
58	Support services
59	Promoting Our excellent Private Schools
60	EDUCATION
61	post 19 sen
62	Food security!!!!
63	opportunities

Please tell us what you think we should be spending more on - A better start for children and young people

96	Safeguarding, SEN children
97	Support for kids with learning difficulties
98	Green or public places
99	Public spaces
100	Educating children
101	targetted mental health support
102	opportunities
103	The schools which are struggling and make sure they have good resources.
104	green or public spaces
105	education
106	green spaces
107	sport and activities for children/young people
108	Education - more teachers. Support services
109	Providing public toilets that are free. Many people or carers accompanying people can't go places that don't have public toilets
110	narrow attainment gap through early years, and breakfast and after school clubs
111	youth clubs
112	Environmental sustainability and mental health services
113	Improving parks and public spaces
114	Education
115	SEN support staff in mainstream schools
116	Apprenticeships
117	health recreation
118	Children and families under 5 and vulnerable families
119	Greening the city (re climate crisis, flooding and pollution) - a range of plants that have the maximum benefit for wildlife, planted in the right place and looked after in the right way. More cycle lanes that are safe for children (re health).
120	Education
121	Parks and green spaces in the city walls, fun programs and childcare
122	SEN services
123	Education
124	Playgrounds and youth club support projects
125	Education, play areas for children
126	All
127	youth clubs, after school clubs, sports clubs

Please tell us what you think we should be spending more on - A better start for children and young people

128	green spaces
129	More funding for three and four year olds
130	Making schools incorporate an inclusive approach to learning that develops the brain for creative critical problem solving more modern jobs, not factory workers of the past.
131	- low income families should receive invitations, for there children to join local sports, makers space, games clubs - at a subsidised cost - I feel that it is critical the children & teens get exposure to positive role models
132	Opportunities and support services
133	green space
134	Childcare provision to support women back into employment
135	Ensuring good quality childcare provision is in place for all who need it.
136	education and support services
137	Youth services
138	education
139	parks
140	Better community provision for all children and young people aged 0-18, better targeted support services especially for 0-5's
141	Education
142	green spaces, opprtunities
143	Greater cycling support
144	'Sure start' type provision
145	helping struggling families especially with 2 working parents
146	opportunities
147	Early years education and support
148	Support services, open spaces
149	Youth services
150	education
151	Emotional health. Parental support. Funding equal opportunities
152	Support services
153	Getting the younger generation to be fitter.
154	Support services
155	Basic education
156	Urban green spaces
157	early years, parenting, libraries
158	Reducing class sizes

Please tell us what you think we should be spending more on - A better start for children and young people

159	childrens services for those in need, mental health, enable preventative work & thus reduce crisis management
160	children with special educational needs (SEN)
161	schools to reduce class sizes and iomprove physical infrastruture, more on clubs, groups and activities for kids
162	Parks and playgrounds, youth groups
163	Education
164	children's centre's
165	youth clubs
166	YES
167	Support services
168	making roads safe and green recreational space
169	Supporting parents to balance work and home life - increase early years provision to encourage women back into the work place
170	Youth services, care leavers
171	Nothing
172	indoor play spaces in the city centre where parents can relax a bit and also watch their children, there are no cafes with enough space or security to do this apart from the spurrier gate centre
173	GREEN SPACES
174	Education and green spaces.
175	education, accessible sevices/enrichment.
176	Opportunities and support. Mingle with businesses more.
177	Provding activities/volunteering opportunities for teenagers who are too young to work but need something to inspire and motivate them outside of school
178	Sports facilities for children free of charge
179	Green spaces & parks

Please tell us what you think we should be spending less on - A better start for children and young people

1	support services
2	Public spaces, although important there are other priorities to focus on
3	Public spaces
4	green initiatives
5	Your own salaries
6	Nothing - appropriately funded
7	public spaces
8	Taxis
9	LOCAL AREA CO-ORDINATORS
10	Opportunities
11	Chronic overspends on consultants in poorly managed children's social care. Your services will be judged to be inadequate by Ofsted and yet you pour money into this area but without the management to get it right. All these additional costs are coming at the expense of everything outside of social care.
12	Support service's
13	Salaries of director and assistant directors in CYP services.
14	Nothing
15	Opportunities
16	Bureaucracy
17	leisure
18	Turning park keepers cottages into holiday lets like you did in Rowntree Park.
19	Supporting private venues eg gyms
20	Education initiatives which have very little benefit to the majority of children and stop change. There is little wrong with our education system apart from expert non teachers stating how knowledge and life skills should be delivered. Ask the people who do these jobs how improvements can be made and listen to them.
21	Members expenses
22	n/a
23	Education
24	support services
25	Young people
26	Planting seeds on public spaces so they cannot be used by the public
27	Planting seeds in public spaces which can't them be used by the public
28	New Public spaces. If you make schools community schools the playgrounds could be used on weekends & school holidays
29	Organisations that apprep not working especially in chapelfields

Please tell us what you think we should be spending less on - A better start for children and young people

30	Benefits
31	Recycling
32	Inclusion, diversity & wishy washy liberal lefty nonsense
33	GREEN SPACES LEAVE THAT TO PRIVATE SECTOR
34	Educational enrichment (music etc.)
35	support services
36	Pointless meetings to discuss education where it is not necessary.
37	Support services
38	Nothing
39	Green spaces
40	Benefits
41	Subsidising private for-profit organisations.
42	Executives pay
43	Green Issues
44	Public spaces
45	Mediale
46	Council vanity projects
47	York central flood defenses
48	Opportunities
49	public spaces
50	All areas
51	Community facilities
52	N/A
53	Self Hilked Councillors pay
54	Green and public spaces
55	Councillors stipends
56	nothing
57	nothing
58	green or public spaces
59	education
60	support services
61	support services
62	can't think of anything! investing in young people is a best buy

Please tell us what you think we should be spending less on - A better start for children and young people

63	car parks
64	Funding after school care for those who can afford it
65	Social work agency staff and consultants
66	Plants that have little wildlife benefit (e.g. daffodils). Use of pesticides, especially in public and wildlife spaces.
67	green & public spaces
68	Alcohol related stuff, this city is overflowing with drunks
69	Local area initiatives
70	Conusltants
71	providing car parking spaces for teachers
72	Legal costs that can be avoided.
73	education
74	Public spaces
75	council meeting biscuits

79	public spaces
80	There is not enough information here to make a sensible choice
81	Opportunity
82	idk
83	Nothing
84	Consultants fees.
85	University spending - encourage people to learn a trade.
86	Central support for schools
87	Maintain only what we have now, reduce crisis management
88	Council Directors
89	building massive ugly buildings
90	Nothing
91	Free school meals
92	OPPORTUNITIES
93	I don't think there should be any cuts to these services.
94	Education

Please tell us what you think we should be spending more on - A greener and cleaner city

- 1 Recycle more types of plastics. Crack down on fly tipping.
- 2 waste and recycling
- 3 AIR QUALITY
- 4 Recycling facilities, recycling education, biomass services, allotments and community gardens
- 5 Green spaces
- 6 Improving the range of domestic waste that can be recycled. Improve public transport infrastructure / discounts for residents of all ages.
- 7 reducing traffic emissions
- 8 Planting more trees
- 9 More recycling - especially plastics
- 10 Recycling and adding wild flowers to green spaces
- 11 sustainable transport
- 12 Electric busses
- 13 Recycling
- 14 air quality, public transport, green spaces
- 15 the same
- 16 Single recycling bin / box as with other LA
- 17 One blue bin for all recycling
- 18 Planting trees.
- 19 discouraging Make It York from taking over public spaces
- 20 New ideas for sustainable transport. Expanded recycling facilities
- 21 Recycling bins around the city and raising awareness about climate change issues. Keep buses running as alternative transport into the city and around Yorkshire.
- 22 Better refuse and recycling, ensuring that our green spaces are protected.
- 23 Brown waste recycling! Crazy we don't have it yet. Real problem for those without garden when waste collected biweekly. Stricter controls on coal burning for heating.
- 24 Recycling - one big recycle bin rather than small boxes will encourage recycling
- 25 Air quality and transport
- 26 Bins and waste.
- 27 Recycling more via doorstep collections eg food waste
- 28 ban fossil fueled vehicles from within the city walls
- 29 Air quality
- 30 Recycling
- 31 Reducing CO2

Budget Consultation 2020/21

Please tell us what you think we should be spending more on - A greener and cleaner city

32	recycling including extending the type of materials that can be recycled
33	Cycle infrastructure
34	Tree planting, cycling, wildlife areas
35	transport
36	Recycling more at kerbside, and labelling boxes better as I see many people contaminating waste streams with plastic trays and pots etc. More pedestrianised areas in town, more soft engineering to protect banks from flooding and erosion. Require stronger local planning rules on insulation etc where possible. Invest in more renewable energy for Council houses/buildings.
37	Reducing bus fares for people to travel in the city £1 fare max
38	Social services this is a ticking time bomb more so than climate
39	None
40	collection of other recyclables such as tetra pak, and food waste
41	flood prevention
42	air quality, green spaces, trees, plants
43	getting the cars out
44	Recycling, fly tipping
45	Sustainable and affordable public transport, our buses and taxis are a rip off
46	More public bins and more regular collections
47	collecting wider range of recyclable items, plant pots in the city centre
48	Waste services requirements to provide better more reliable service (new vehicles) more communication and engagement with school children and local groups of waste and recycling within the community
49	Sustainable cleaner transport. Buses are choking the city
50	Wider recycling measures - even if not economically "viable" in the short-term. We can't wait for everyone else to do it before we take the plunge.
51	Tallinn has free burs for local residents, reduces car use
52	more open green space, outer ring road improvements to clean up city centre roads
53	Get rid of the recycling boxes and have recycling wheelie bins
54	Waste and recycling
55	Recycling
56	Air quality
57	Waste and recycling collection
58	Making pollution data available
59	Tree planting in local woods and inns and cutting bus emissions
60	Taking out unnecessary traffic lights

Please tell us what you think we should be spending more on - A greener and cleaner city

61	Recycling. When we moved to York 15 years ago, you recycled more different items than you do now. Many thermosetting plastics are no longer recycled because you claim to have little money.
62	Waste and recycling we need bins in order to recycle but I'm not paying for them
63	Better recycling collections, more trees.
64	Low carbon heat for your buildings - insulation first though.
65	Green spaces
66	Waste and recycling
67	Separating the recycling instead of mixing it after residents sort it
68	PLANNING
69	proper recycling centres that you can actually get into
70	Providing recycling options in city centre and increase number of places to recycling non-curb side products like film and carrier bags
71	sustainable transport
72	Paying the bin men more money for a start, because after every shift a shower is mandatory otherwise we smell.
73	improved recycling, the authorities recycle more items
74	Green spaces
75	Recycling make it more efficient
76	Recycling and Green spaces
77	Waste and recycling
78	Sustainable Transport
79	Expanding the range of materials that can be recycled. If our neighbours in East Yorkshire can do it so can York. Get rid of the boxes and just provide one bin for dry recycling. Plant more trees. Stop allowing people to pave gardens or turn them into parking. Insist on sustainable construction that is done to a high quality.
80	Public transport
81	Rewinding green spaces and parks
82	Less cars to allow more public transport
83	Green transport - a bold plan please
84	Sustainability projects
85	Street cleaning, pedestrianise city centre (except for deliveries)
86	Better sustainable transport
87	air quality
88	Congestion charging
89	Cycling
90	Nothing

Please tell us what you think we should be spending more on - A greener and cleaner city

91	Cycle paths
92	recycling plants that can recycle ALL plastic's
93	sustainable transport
94	Recycling
95	waste and recycling
96	Air quality with sustainable transport
97	Increase types of waste that can be recycles at doorstep; green public transport; car free areas/times
98	Street cleaning
99	Hard to recycle goods - services such as tips.
100	Nothing
101	Recycling
102	Increasing the number of types of plastic which can be recycled, bus services
103	TRAFFIC LIGHT IMPROVEMENTS
104	Green bin collections and recycling
105	Planning and green spaces, air quality
106	Recycling facilities
107	Fuel efficient council/ local transport vehicles
108	Green infrastructure, getting more payback from greenspace
109	190
110	supporting retrofit schemes for existing properties
111	sustainable transport
112	Let us recycle more - other councils do.
113	recycling, green spaces
114	waste and recycling
115	green spaces.
116	recycling
117	Waste collection, street cleaning, sustainable transport
118	Make all one-way roads two-way for cycles. Reworking the cycle parking requirements for supermarkets, cinemas etc so all types of cycle are accommodated. Remove private cars and lorries including car transporters from Bootham and Gillygate...
119	introduce congestion charge, reduce traffic, pedestrianise more, plant more trees
120	education, look at other authorities like Ryedale and see how they are tackling waste and recycling.
121	Cycle infrastructure, public transport, recycling - please can there just be one bin
122	Recycling, public transport

Please tell us what you think we should be spending more on - A greener and cleaner city

123	household recycling
124	Natural planting on roundabouts instead of replanting every 3 months
125	Circular economy. Proper collection and recycling of all plastics
126	Guidance from professionals to get it right. Sustainable transport. Green spaces (see previous).
127	Air quality, land quality, recycling, sustainable transport
128	Public transport (it's cheaper to get a plane to London than a train, please reduce fares) and cycle lanes
129	Recycling initiatives - improve collections
130	Recycling and electric buses
131	Electric and dual fuel vehicles when current vehicles due for replacement
132	consider work place parking or road pricing to reduce number of vehicles entering York
133	Dont spend more but be more efficient & provide a wheelie bin for recycling as stupid boxes all get thrown in together anyway
134	All
135	Recycling more at kerbside, unsorted, e.g. wheelie bin for recyclables, encourage renewable energy, subsidise householders
136	More recycling bins around the city
137	Air pollution, recycling all capable plastics, ban diesel ASAP, plant air cleaning perennials, electric tram system, use the Ouse and the Windmill in Acomb to generate power already!!
138	residents give opportunity to Buy trees for the verge / sidewalk
139	Air quality, allow more items to be recycled, transport running in renewal energy
140	air quality
141	Recycling
142	Recycling services; reducing car usage.
143	air quality, recycling and sustainable transport
144	Recycling
145	sustainable transport
146	waste and recycling
147	Better recycling
148	Recycle more, flood pumps, reducing traffic congestion
149	sustainable transport
150	Reducing or restricting car use in poor air quality areas
151	All of the above
152	improving cycle routes by stopping cars parking on them
153	sustainable transport
154	Public transport

Please tell us what you think we should be spending more on - A greener and cleaner city

187 Free bus transport for local residents

188 Improve bus facilities/accuracy. Improve cycle space and routes. Santander bikes?

189 Always provide free bins for residents - someone keep stealing my recycling bins but I have to pay for replacements and this is very unfair.

190 Planting trees, improving kerbside recycling, improving city centre recycling, do more street cleaning, more litter picking, plant kerbside wildflower meadows, improve air quality and river cleanliness

191 Recycling

192 Trees and green space

Please tell us what you think we should be spending more on - A greener and cleaner city

1	sustainable transport
2	The council should introduce a tourist tax. These visitors create mess and yet council tax payers have to fund the clean up.
3	planning
4	Fossil fuel - run vehicles, incineration
5	Recycling
6	sustainable transport,planning
7	cycling facilities
8	Your own salaries
9	Promotional literature, newsletters etc
10	air quality, green spaces
11	planning
12	Green spaces there's enough in york
13	Planning
14	Rubbish public transport system. Don't put money in to a company that doesn't provide a good service
15	Cycle lanes they use the road
16	Improving public transport
17	attracting too many visitors
18	Car infrastructure in city centre: ban cars from centre.
19	City centre, more on green spaces.
20	Nothing
21	Bureaucrats
22	buying diesel buses
23	Planning
24	Planning
25	Increased car infrastructure
26	Flood defences such as walls and barriers -- trees are much better
27	recycling publicity
28	Massive car parks that encourage cars e.g. St George's field.
29	Overpriced car parks
30	education on the environment the vast majority of people are aware of the problems associated with our environment . We are overdosed on it.
31	None
32	collection of landfill rubbish
33	n/a

Please tell us what you think we should be spending more on - A greener and cleaner city

34	Bus services that run empty
35	Electric points within the city
36	New buildings
37	Traffic lights
38	A waste centre for the west of york
39	Fining people for not separating their recycling. We've watched it go into the lorries and it is all mixed in there so why do we have to separate it all?
40	Transport not fit for purpose like first york buses
41	Everything else.
42	Recycling
43	Stupid headline grabbing political initiatives
44	GREEN SPACES/AIR QUALITY
45	Green spaces - Families struggling to provide meals in summer holidays can't afford to even make it into the city centre to enjoy green spaces
46	planning
47	Paying the bin mens bosses in the offices who are on silly money less.
48	Stopping cars entering the city
49	Planning
50	Car access
51	Roads for car accessibility
52	Remove the post of executive member for climate change, complete waste of money. Stop paying for First's hugely expensive green buses.
53	Major flawed road projects
54	Sustainable transport
55	Recycling
56	Council vanity projects
57	waste disposal to landfill
58	Green Spaces
59	Shouldn't be a either/or but green spaces
60	Carbon neutral target
61	Household refuse collection. Force business in the city to recycle (many bars and pubs send glass, plastic & cans to landfill because it's cheaper than getting 2 sets of refuse collection)
62	All areas.
63	Sending waste for incineration
64	Councillors No Efforts Pay Hike

Budget Consultation 2020/21

Please tell us what you think we should be spending more on - A greener and cleaner city

65	Councillors stipends
66	Less on unachievable goals...neutral by 2030??
67	Concrete
68	60
69	park and ride
70	planning and green spaces
71	sustainable transport
72	sustainable transport
73	Planning
74	Things that make using a car easier and more convenient for drivers such as multi-storey car parks
75	electric vehicle infrastructure - need to minimise private cars not just change to another type. penalise non-electric and the market will provide for electric for those willing to pay the premium for private cars
76	black bin collections
77	petrol buses
78	Diesel buses and taxis
79	Projects that remove carbon sinks.
80	Nothing, the environment is the most important issue
81	Allotments
82	Air quality
83	Consultants
84	Non solar Christmas lights hung until April, and the planting of annuals in city gardens is wasteful, useless council staff who don't hit targets like Goldman Sachs.
85	- limit the types (colours/grad) of plastic in our city - (lowering the cost of recycling)
86	Green spaces. We already have enough such as the gardens outside Yorkshire museum and the Minster!
87	Transport
88	council meeting biscuits
89	all others
90	planning
91	Cycling infrastrucure
92	Car parks inside of the city walls
93	None of the above
94	car parking places other than for disabled
95	planning and green spaces

Please tell us what you think we should be spending more on - A greener and cleaner city

96	Car parking
97	There is not enough information here to make a sensible choice
98	planning
99	Cutting grass - let's rewild
100	Nothing
101	Filling it up with houses.
102	Recycling
103	Electric buses
104	landfill. Consider recycling points in villages/ areas rather than door to door
105	anotthing that makes it easier to use a car
106	sustainable transport
107	dualing roads
108	building more road capacity
109	Cancel out being road dualling and anything CO2 and pollution producing -seriously the city has declared a climate and environmental emergency anything else is life service
110	Building on Green spaces
111	AIR QUALITY
112	You'll never achieve a carbon neutral city by 2030 - do not throw money away trying to achieve the impossible. Do not spend extra money here if it means another aspenct takes a hit.
113	Planning

Please tell us what you think we should be spending more on - Creating homes and World-class infrastructure

- 1 planning and infrastructure
- 2 Social housing
- 3 Small homes, starter homes, social housing, council housing, green housing, communal living
- 4 Affordable housing
- 5 broadband availability
- 6 Plan and build more social housing to at least replace homes lost to right to buy each year
- 7 imaginative, creative, world-class designers and architects
- 8 Tram network
- 9 Nothing - this is for the market.
- 10 Social housing
- 11 affordable housing
- 12 Local community building s
- 13 Broadband Availability
- 14 brownfield redevelopment, protecting green space, lower density development
- 15 the same
- 16 Roads
- 17 Empty properties. Supporting good landlords.
- 18 Upgrading current council properties
- 19 council housing and broadband availability
- 20 Careful thought and proper consultation before planning permission is given, especially when it involves more blocks of flats
- 21 Green new builds, including funding by local investors or Abundance. Training for apprentices in green construction so future projects can use strong pool of local workers. Get fibre broadband to each house. Ensure not too many properties lost to Airbnb like dozens of flats on my street, Wenlock Terrace.
- 22 Affordable housing
- 23 Affordable and social housing
- 24 Infrastructure
- 25 High broadband speeds (support the working from home/small business economy as that generates income and individual spending in the city), home insulation
- 26 affordable housing
- 27 Social housing
- 28 Cheaper housing
- 29 Brownfield sites
- 30 affordable and eco housing,

Please tell us what you think we should be spending more on - Creating homes and World-class infrastructure

31	Affordable housing
32	Sustainable affordable housing
33	family homes
34	Enabling spaces to exist for small, local and independent businesses near any new housing and other areas. High percentage of social housing should be part of any new housing e.g. 50%. High passivhaus standard building techniques needed across the board of all new and existing stock.
35	Housing local councils building Council Homes which are run, managed and maintained by the Council(as it used to be) and not sub contracted out.
36	Money has never been cheaper to borrow to finance this. This obviously would require a change in the law to revoke the "Right to Buy" law to stop councils having to sell after x number of years.
37	Getting sleepers off the streets
38	physical infrastructure - adding 800 homes in Germany Beck on the A19 without improving the roads will cause even longer tailbacks
39	Social housing
40	Developing York city centre into more than a drinking destination. I rarely go near it and I live next to it. I'd rather drive to monks cross
41	internet signal to be available in all the city
42	Affordable housing single young and working population wanting to get onto the housing ladder
43	Social housing and improving existing estates.
44	Social housing - your current housing strategy will deliver a net loss of this unless you change it.
45	Build council houses near good public transport
46	innovative, beautiful, environmentally friendly buildings - using skills we're supposed to have as an IT and Science city
47	Social housing
48	Affordable housing
49	Broadband availability
50	Roads
51	Transport infrastructure such as roads
52	Social housing
53	Affordable and sustainable council housing
54	Better quality new homes.
55	Heat networks.
56	Reducing business rates
57	Affordable housing
58	Exclusive large houses with large gardens
59	PLANNING AND INFRASTRUCTURE
60	council housing

Please tell us what you think we should be spending more on - Creating homes and World-class infrastructure

61	York's recent affordable housing is not actually affordable (we are a two income family with 5 degrees between us and they are still unaffordable on a doctor's wage)
62	infrastructure and sustainability
63	Building houses.
64	Proper infrastructure for new developments
65	fast broadband
66	Broadband availability
67	Housing
68	building homes to rent but making sure the infastructure can support new homes
69	Social Housing
70	Quality, well built sustainable and efficient housing.
71	Insulation
72	Sustainability
73	Smart housing
74	Affordable housing
75	Property developments providing homes and flats of reasonable (i.e. not the size of a postage stamp) at a price people can actually afford
76	Affordable housing
77	social housing
78	Social Housing
79	Infrastructure
80	Insulation
81	Nothing
82	Council house building
83	telecoms infrastructure as speeds are slow
84	planning an infrastructure, quality and standards
85	Affordable housing
86	affordable housing
87	Social housing
88	Affordable housing
89	Building on brownfield & Greenfield sites.
90	Building Council houses
91	Nothing
92	Schools

Please tell us what you think we should be spending more on - Creating homes and World-class infrastructure

93	BUILD A HOUSE
94	Council housing building very important
95	Planning and infrastructure, broadband availability
96	Social housing
97	Assisting & financing true local into private housing
98	Housing quality
99	100
100	rail
101	affordable housing
102	Affordable housing. Stop builders using section 106 all the time. They won't voluntarily build affordable homes.
103	detached housing
104	planning and infrastructure
105	low cost housing that is fit for purpose. and also available for working single people.
106	Affordable housing, social housing
107	Education about the benefits (to the individual as well as the planet) on how to insulate your home
108	council owned social housing, passive house high quality homes, beautiful 21st century York designs (progressive, utopian, locally rooted), "button" development at district centres (up to 5/6 stories near local services and on best transport links)
109	quality and standards - improving the stock we already have
110	Affordable housing
111	Affordable housing
112	smaller, cheaper houses
113	Housing for residents not students broadband for york outer residents
114	Carbon Neutral homes for for the future
115	Sustainability. Developments that involve creating genuinely positive (not token) green spaces and wildlife-friendly adaptations (see guidance from RSPB & Wildlife Trusts).
116	infrastructure
117	Council housing, social housing, housing in general
118	Social Housing - improving and creating
119	Affordable housing
120	Building homes for local residents
121	fast broad band and social housing. Insulating poor quality housing
122	Many areas in York Naburn & Wheldrake etc have mobile blackspots
123	All

Please tell us what you think we should be spending more on - Creating homes and World-class infrastructure

124	Social housing is a must,
125	supporting car-free developments
126	Affordable housing for working people
127	Creating better roads for the demanding population in the next 100 years. Banning housing used for holiday rentals (like Airbnb) like Los Angeles has recently done to create housing opportunities and boost suffering hotels.
128	future homes will need three phase power (battery/Vehicle to Grid) :Council need to buy empty shops and make them available to starting business (with out a 10 year leases)
129	Help combat homelessness by making as many cheap and affordable homes for people stepping on the property ladder.
130	affordable housing
131	Infrastructure
132	Affordable, accessible, social housing.
133	social and affordble housing
134	Affordable homes for all
135	none
136	social housing
137	Better housing, better management of what is available, policing landlords
138	Making spaces available for housing that aren't flood plains
139	social housing
140	Carbon neutral housingstandqrd
141	Council housing with no right to buy
142	plots for self build with support for the owners
143	sustainability and broadband availability
144	Social housing
145	Affordable social housing
146	Energy-saving measures
147	quality and standards, social housing
148	Affordable, accessible homes
149	Social housing
150	Training scheme managers to learn how to work side by side with elderly residents.
151	Affordable housing. Rent costs in York are out of control. Our 2 bedroom, old and moldy terraced house is £800pcm! Rent! How can anyone afford to save to buy? It's not even in town, it's the far end of Holgate.
152	Affordable housing.
153	Broadband

Budget Consultation 2020/21

Please tell us what you think we should be spending more on - Creating homes and World-class infrastructure

154	affordable housing, social housing and associated infrastructure... drainage,
155	speeding planning applications for affordable homes
156	quality & standards of housing we do have- repair & ensure they meet the needs of residents, accessibility
157	affordable housing (not council houses of old)
158	planning and infrastructure
159	homes
160	affordable housing for residents
161	YES
162	Affordable homes - saw in the news recently that York had to return unspent HTB receipts to central gov't. Shameful waste!
163	social housing
164	Social housing
165	20 minute communities (remove dependency on car focused retail)
166	Engaging local communities to avoid Nimby-ism and use newconstruction methods / modular housing
167	Ensuring children have access to it at home, ensure infrastructure meets residents needs not just businesses eg the pavement needs to be an interesting space when market stalls are not there
168	improve broadband and mobile phone connection across the city and surrounding area- Go for world status on sustainability on all infrastructure
169	Social housing
170	they are all too expensive to afford anyway
171	SOCIAL HOUSING
172	Affordable housing
173	developing existing housing
174	Private rental prices are skyrocketing and this needs to be controlled in some way - I am lucky to be a homeowner, but if I wanted to rent somewhere of a similar size to my house it would cost tripple my mortgage repayments, people are paying through the nose to line private landlords pockets whie banks tell them they can't afford a mortgage that would actually be cheaper. This is wrong on so many levels.
175	Building council and social housing
176	Social Housing

Please tell us what you think we should be spending less on - Creating homes and World-class infrastructure

1	social housing
2	Broadband
3	Corporations, tourists!
4	Broadband availability
5	affordable housing, social housing, quality and standards,
6	the clowns you're employing at the moment
7	Your own salaries
8	Endless consultation and seeking views
9	affordable housing
10	socail housing
11	Town centre pubs
12	Social housing
13	Community Stadium
14	Housing
15	New building schemes.
16	affordable & social housing are meaningless words
17	No more digging up pavements for broadband cables please
18	Social housing and council housing
19	Broadband/ Free wifi
20	Acquiescing to the interests of private companies and landlords. Create inventive ways to create affordable homes that can't just be bought and then sold in 5 to 10 years
21	Bureaucracy - get more efficient about decision-making
22	Broadband
23	Bureaucracy
24	Car parking
25	Non-green houses
26	flats and student accommodation
27	Obsessing over being a 'wi-fi' city when we have PEOPLE STARVING TO DEATH ON THE STREETS AND LIVING IN 'SEX FOR RENT' SLUM LANDLORD housing.
28	promoting affordable housing which is only affordable if you can afford it. I think that the term affordable is incorrect as most people's annual salary is too small to buy an affordable home.
29	The man with 12 kids and who won't work
30	Castle gateway

Please tell us what you think we should be spending less on - Creating homes and World-class infrastructure

31	Stop kidding yourselves that York is an affordable place to live
32	Social housing for those not willing or not looking to up skill or work (that are able to work)
33	Too much student accommodation new build and space given over to hotels
34	Not really spending less - but just come to terms with the fact that we need to set ourselves on longer term investments if we are to quickly address our social housing needs.
35	papering over the cracks, dull architecture
36	Social housing
37	Broadband
38	Social housing
39	Social housing
40	Buses
41	Buses
42	Broadband. We would prefer to choose our own supplier rather than be charged on our rent for a poor quality supplier. Talk talk will never be better than Virgin Media, even with UFO. It was bad enough we had to pay for an antenna we never used because we do not watch free to air television.
43	Broadband and private lets
44	Car facilities.
45	Recycling
46	Flats and shoeboxes
47	SOCAIL HOUSING
48	However, my cousins who CHOOSE not to work have three bedroom council houses they are allowed to stay in regardless of changes in their circumstances.
49	social housing (people need to be encouraged to earn a pay)
50	Enticing the rich, in London, to snap up the affordable housing, come on, I'm not stupid, neither are you, reading this out to all those in front of you, sleep well.
51	Social housing
52	building on flood planes
53	Broadband Availability
54	Creating homes and world class infrastructure
55	Get rid of the right to buy scheme, it's depleting the housing stock and the discount offered would not be available to people who work hard and do not qualify for social housing.
56	Vehicle access
57	Affordable housing

Please tell us what you think we should be spending less on - Creating homes and World-class infrastructure

58	Council houses. In particular, expensive passivhaus-like initiatives are not an acceptable spend for council houses.
59	Broadband
60	Luxury developments and expensive student accommodation
61	Constant tourist promotion
62	Social housing
63	Roads
64	Council vanity projects
65	street lighting
66	social housing
67	Broadband availability
68	Infrastrute for tourism Inclusio
69	Building housing estates for the wealthy
70	Selling land for private house builders
71	All areas
72	Technology
73	Councillors self awarded Pay
74	Councillors stipends
75	on infrastructure ie stupid planning rules ie newts
76	100
77	street repairs
78	broadband availability
79	flats or other attaching housing
80	social housing
81	broadband availability
82	Broadband availability
83	Inviting tenders from developers with terrible reputations, who build tiny homes without entrance halls for coats, shoes, push chairs etc
84	protecting green belt. don't allow dormitory car dependent suburb construction - must have viable local centres and transport links, but have a position in favour of sustainable development on the green belt
85	Encouraging people to buy their own place and give people affordable roofs over their heads. it isn't a right to own your home but you are entitled to a safe place to live. That won't adversely effect your mental or physical health.
86	Broadband, high income housing
87	broadband
88	Energy inefficient homes

Please tell us what you think we should be spending less on - Creating homes and World-class infrastructure

89	Developments involving the removal of important carbon sinks.
90	housing
91	Private landlords, student housing (renters who charge per room can charge more for less and rent is out of control in this city))
92	Broadband availability
93	Broadband availability
94	Teardrop development
95	part buy and 'affordable' housing which rarely is
96	widening roads
97	On Broadband
98	Roundabouts on the ring road (opposite of your self described world class info structure) and other wasteful decisions like amping up anti terrorism barriers when the city could be completely pedestrian
99	make money from green tech such as " https://char.gy/councils " (charging points in street lighting - councils get a cut of the fees payed) spend less of licensing software - start to switch suitable systems to linux / Ubuntu
100	broadband
101	Social housing
102	council meeting biscuits
103	Students
104	social housing
105	sustainability
106	Broadband schemes
107	dualling the ring road
108	social housing
109	Prestige projects
110	Consultants
111	broadband
112	Inaccessible housing. Flats.
113	Nothing
114	Planning new villages that are not needed.
115	meetings and planning
116	fighting to protect the green belt
117	building new homes that arent good standards or suitable for ageing population
118	broadband availability
119	attracting developers who build high end properties

Please tell us what you think we should be spending less on - Creating homes and World-class infrastructure

120	Faffing about with the Local Plan. Get it finished!
121	Expensive development sites that don't progress
122	Building too many flats
123	AFFORDABLE HOUSING
124	building new houses
125	Nothing more needs spending on broadband availability - we're one of the most connected cities on the UK, people simply don't seem to take advantage of this.
126	Broadband
127	Advertising and consultancy!

Please tell us what you think we should be spending more on - Safe Communities and culture for all

- 1 crime
- 2 Public toilets
- 3 Lighting, out of school activities and clubs, education, community groups
- 4 Crime
- 5 heritage and tourism support
- 6 keeping the city free of drunks, yobs and stag parties
- 7 Incision
- 8 A safe event space
- 9 crime
- 10 Local people and services such as wi do free
- 11 Combating Crime
- 12 heritage, tolerance of diversity, inclusion
- 13 the same
- 14 Youth Service,
- 15 Stopping Drugs and crime
- 16 Protecting our historic buildings and features.
- 17 time on policy to deal with anti social behaviour.
- 18 Community centres, shared spaces. Home help and support . Cultural festivals
- 19 I think it's about right, actually...
- 20 Heritage
- 21 Cultural inclusin
- 22 Policing
- 23 Evidence-based approaches to reducing crime
- 24 Crime prevention
- 25 Public open spaces
- 26 Cultural events
- 27 Natural heritage
- 28 people centred activities
- 29 Including community groups in decisions such as York Civic Trust. start policing illegal uber drivers and cars flouting pedestrianisation instead of bullying homeless people. Stop allowing large story new buildings in York that ruin the cityscape e.g. new hotels and apartments.
- 30 Policing the streets
- 31 Active policing where there are officers on the streets. I rarely see a police officer walking around they are nearly as rare as the Dodo.

Budget Consultation 2020/21

Please tell us what you think we should be spending more on - Safe Communities and culture for all

32	Police / Ambulance / & other services support
33	Crime / Policing (expand the CIZ)
34	Working with disadvantaged youths that are often the source of the issue when it comes to anti-social behaviour
35	better lighting in the night
36	Supporting local areas that have issues with ASB and social exclusion
37	Genuinely supporting - not just signposting to broken services - struggling families and individuals at risk getting involved in crime
38	Making culture more inclusive. Sport & leisure
39	mental health provision, youth clubs
40	Support for children to stop bad behaviour before it starts
41	Emergency services like police, ambulance, fire department
42	Crime
43	Local culture and people
44	Local people
45	Targeting those who repeatedly offend. Ensure that elderly, disabled or vulnerable relatives of those you arrest are cared for if the person you are arresting is sole or main carer. I have seen first hand how little you & Notyh Yorkshire police care about those left unable to care for themselves for hours whilst an arrest is made. In one case, it hastened the death of an elderly woman with early stages of dementia who had nothing to eat or drink for 15 + hours & she couldn't move around because the police turned her house upside down.
46	Crime and inclusion
47	Crime, stopping drunken yobs at a weekend.
48	Support for community groups and their buildings.
49	Heritage and tourist facilities
50	Support networks
51	Policing and punishing the drug dealers
52	CRIME
53	Food banks, emergency housing for teenagers and support to keep them in education as long as possible.
54	crime
55	Talking closer to York residents and their community issues.
56	Visible deterrents eg CCTV
57	Inclusion
58	community police patrols as the culture of groups of youngsters gathering in public places may be innocent but can be very intimidating
59	Crime Prevention and working alongside the Police
60	Interacting with the youth who may cause antisocial behaviour.
61	Cameras

Please tell us what you think we should be spending more on - Safe Communities and culture for all

62	Crime
63	Heritage
64	Keeping York a heritage city not a drinking venue
65	Crime
66	Discouraging drunkenness during the weekends, especially on a Saturday afternoon. Discourage drinking tourism.
67	heritage subsidies
68	Crime
69	Heritage
70	Technology's
71	Getting community payback schemes to do more useful work
72	Sponsoring PCSOS. Hi tech CCTV and analytics inked to police control rooms
73	green field areas
74	cultural opportunities and inclusion, support network and crime
75	Crime
76	homelessness
77	Inclusion
78	More spending on rehabilitation and support for those who come into contact with the criminal justice system
79	The police precept
80	Dealing with crime and anti social behaviour
81	Nothing
82	Law enforcement
83	Getting rid of stag and hen parties asap
84	Support networks, cultural opportunities
85	Police
86	Heritage protection and promotion
87	100
88	the arts
89	crime prevention
90	Engage with volunteer groups in the community who provide so much from sport to theatre groups. Small grants can make all the difference.
91	police
92	crime
93	sport/leisure facilities for young people to stop them hanging around
94	Crime prevention and detection, cultural opportunities

Please tell us what you think we should be spending more on - Safe Communities and culture for all

95	Developing active tourism
96	tackling violence against women, cultures of violence. compulsory anti-violence&misogyny workshops with teens.
97	cultural opportunities and inclusion, support networks
98	Culture arts heritage
99	No idea what you are talking about
100	Social programs, job centres and rehabilitation
101	SEN and Multi-Cultural Inclusion Opportunities
102	Crime and inclusion
103	Spend more on fewer, better festivals rather than encouraging „a festival a week“
104	museums and policing
105	All
106	Free museum access on weekdays
107	crime prevention and enforcement of existing regulations such as litter dropping, cycling in pedestrianised areas outside of allowed times etc.
108	Creating safe places in york and getting the message out about it
109	Crime prevention and road safety
110	Community centres that connect the old and young to equally help each other, as well as connecting each other through the history of the city.
111	Inclusion
112	encouraging locals to visit the city for free
113	Heritage, cultural opportunities
114	support networks, cultural opportunities and heritage
115	Community policing
116	crime prevention
117	anti social stag and hen parties
118	Crime prevention, tackling ASB
119	Stronger limits on pubs and bars selling alcohol to drunk people
120	support networks
121	Reducing inequalities
122	special passes for york residents to give nearly free access to all the museums and venues
123	crime
124	Grassroots community development and support
125	Museums and theatre
126	crime prevention,heritage
127	Discounts for relatives (and parking for them)

Please tell us what you think we should be spending more on - Safe Communities and culture for all

128	Crime
129	Cultural inclusion including trans, LGBTQ+ and multiculturalism
130	Playing Fields to encourage children to do something
131	Cut down stag & hen culture
132	we need more access to creativity, the arts and heritage in our schools, libraries and communities
133	Police on the streets
134	mental health support that is appropriate & preventative- police shouldnt have to be the 'plan' for someone to contact in a crisis or picking up the peices although they are very good at this.
135	ASB in the new city centre developments such as Hungate
136	crime
137	local areas - coordinators
138	community policing and keeping the city centre a safe and pleasant place to be on a weekend
139	support networks
140	Inclusion and support networks
141	Supporting diverse local independent highstreet retail
142	Establishing an evening offer in York, which incudes retail, information, historic attractions (not just food, drink and theatre)
143	Community cultural opportunities to improve wellbeing and improve social isolation
144	Nothing
145	Tasers & stop / search
146	INCLUSIONS
147	Youth support networks
148	police, inclusion, heritage
149	Create more free activity groups for house wives with various cultures to mingle and learn more about york and each other. Mum never has anything to do here
150	The police need a boost to their funding as they are so stretched and overworked
151	Community Involvement

Please tell us what you think we should be spending less on - Safe Communities and culture for all

1	inclusion
2	heritage
3	Tourists, tourist areas and events, city centre funding
4	Cultural Opportunity
5	inclusion, support networks
6	Leeman Road brownfield site redevelopment
7	encouraging drunks, yobs and stag parties
8	Pointless terrorist barriers
9	Libraries
10	cultural opportunities and heritage
11	inclusion
12	Culture
13	Heritage
14	Support
15	New buildings.
16	Inclusion networks
17	Heritage
18	Those awful anti terror barriers. Terrorism now driven by lone wolves and ugly barriers wont stop it and actually create wider risk
19	Cultural opportunities - what are these? Sound waffly and money-consuming!
20	Culture
21	Ugly anti terror bollards
22	promotional materials ads for historic city etc
23	n/a
24	All except the above
25	Culture / heritage. It's still needed massively though
26	Tourism within York - York is a great tourist attraction in its own right. But many residents feel tourism spending overshadows spending for the benefit of York residents.
27	supporting the drinking culture
28	Weak signposting schemes to broken services
29	Barriers, around city centre, instead block cars from entering at all
30	cultural opportunities
31	Minority groups
32	Economic migrants

Please tell us what you think we should be spending less on - Safe Communities and culture for all

33	Tourism & students from outside York. Currently it appears that the council is more concerned with attracting tourists & students than their own residents. Far too often you close off entire areas for races, foot or horse, meaning carers cannot get in & people cannot get out.
34	Heritage
35	Inviting Newcastle to York for the weekend!
36	Recycling
37	Policing
38	Inclusion and lefty PC rubbish
39	INCLUSION
40	Heritage, cultural opportunities etc. - priorities should be ensuring a basic quality of life for all residents.
41	support networks
42	York has its own heritage and doesn't need advertising.
43	Cultural Opportunities
44	Support networksc
45	The rest
46	Inclusion
47	Tourist advertising
48	New bars and restaurants that encourage antisocial behaviour
49	Heritage
50	Crime
51	Roads
52	Council vanity projects
53	Wardens whatever they are
54	don't sell greenbelt / flood plane land
55	Support networks
56	Crime
57	Punishing those most vulnerable by removing rough sleepers belongings
58	Internal enforcement
59	Tourist bedroom tax - many foreign countries charge a fee of 1-2USD/AUS/EUR/YEN per person per night staying in a hotel room. Minimal effect on tourists, no effect on residents and probably a large source of income.
60	All areas
61	Councillors self awarded pay Hike
62	Make it York hopeless!
63	Crime

Please tell us what you think we should be spending less on - Safe Communities and culture for all

64	nothing
65	Cars, parking, support networks, community safety (this is police work)
66	50
67	nothing
68	cultural opportunities
69	cultural opportunities
70	heritage
71	cultural opportunities and inclusion
72	Support networks
73	Relying on the traditional areas of tourism - romans, chocolate...
74	low level drug crime (cannabis use etc) and low level youth ASB (graffiti,
75	heritage
76	support networks
77	Alcohol, the drinking culture here is disturbing and dangerous
78	Heritage
79	Make it York
80	Homeless spikes on benches
81	Building all weather football pitches etc what a waste of money
82	Allowing private schools to not pay council tax, it's now ridiculous!
83	Support networks
84	council meeting biscuits
85	all other areas
86	inclusion - taxis for SEN children - go to local school no need to spend money sending them to another school
87	20 mph zones - most are obvious
88	heritage
89	Prestige projects
90	Police and Crime Commissioner
91	inclusion
92	He parties
93	Nothing g
94	tourism and tourists
95	Grants to Art projects
96	maintain only what we have- no investment in new projects- we just dont have the money for this

Please tell us what you think we should be spending less on - Safe Communities and culture for all

97	The art gallery - its poor
98	cultural opportunities and inclusion
99	Make it York, events and "festivals". Get more private funding/sponsorships to cover these.
100	heritiage
101	Christmas market
102	Promoting York as a hend/stag/party destination and therefore managing the complaints that follow
103	Cultural events when money is tight
104	Left wing socialist inclusion projects
105	HERITAGE
106	Heritage
107	Advertising, make it York and other ridiculous ideas!

Please tell us what you think we should be spending more on - An open and effective Council

- 1 accountability
- 2 Don't spend more!
- 3 Accountability
- 4 Communication
- 5 Getting on with it
- 6 Communication
- 7 Services
- 8 Accountability & Transparency
- 9 the same
- 10 Easier to speak to and communicate. Less social media tit for tat arguing.
- 11 Getting rid of HMOs houses are for residents not students
- 12 Workers on low wages.
- 13 Stop sick pay within the council it is abused
- 14 time on policy to reduce licensed premises
- 15 Better communication about events. Working in partnership with local businesses and charities
- 16 Communication - a quarterly update on what has been done.
- 17 Consultation and leadership
- 18 Actual accountability. Blind hiring and interview practices.
- 19 Accountability
- 20 Restructuring
- 21 Bold leadership
- 22 Tackling the climate emergency
- 23 opening meeting to the public and on line coverage
- 24 Listing out Council decisions on the public website in a clear and concise format that people who aren't rocket scientists can understand.
- 25 Communication
- 26 Communication, consultation
- 27 Transparency on decisions made, as it looks like you've got a long term plan to get vehicles out of the city centre
- 28 make people aware what you spend on, where your funding comes from (including the EU)
- 29 Accountability and looking into sick levels within the council - putting in place an effective policy followed by all departments and support for employees
- 30 Better communication with council tax payers as to council's intentions
- 31 Providing relevant scrutiny committees with an early sight of decisions which the Exec will be making/nodding through. There is a democratic deficit here.

Budget Consultation 2020/21

Please tell us what you think we should be spending more on - An open and effective Council

32	Partnership - create a network with big companies to bring new employment
33	Accountability, Transparency
34	Finding out what York people want
35	Making pollution data available
36	Recruiting & training Housing Managers who actually care about their tenants & not just the myriad of other jobs you ha e them do.
37	Communication and leadership because it does not work effectively
38	Accountability.
39	Actions based on scientific analysis
40	Better access to council committees
41	Communication
42	Hiring better people and getting rid of the underperforming people in the council
43	TRANSPARENCY
44	leadership
45	Consulting with charities (Trussell Trust etc.) who are attempting to fill shortfalls in funding to see how funds could be appropriated to relieve this shortfall
46	consultation
47	Trying to get your staff to answer the phone for a start off !!! Efficiently and effectively use resources, are you kidding.
48	Meeting the public for their views
49	Transparency
50	Accountability, Stopping Bullying, Transparency
51	Collaboration with other councils. Get the local plan sorted
52	Consultation
53	Transparency
54	Accountability - residents feel unloved
55	Make it easier to contact the council, need to be quicker at responding to people
56	Transparency
57	Accountability
58	Partnerships
59	Stopping secrecy in council decision making
60	Get a tech partner who can develop solutions and save money longer term as well as increasing outcomes
61	self driving cars
62	partnership and leadership
63	Accountability

Budget Consultation 2020/21

Please tell us what you think we should be spending more on - An open and effective Council

64	transparency, partnerships
65	Accountability
66	Increased transparency and communication with public - increased consultation with public through partnership with community and voluntary sector
67	Lower graded staff
68	Nothing
69	Communication and consultation
70	Increase councillor allowances to encourage members of the public from all backgrounds and income levels to stand for election, increase funding for the Lord Mayor and her team, increase funding for the procurement team to drive better value for money from contracts
71	WE WISH, A None Listening and Acknowledging
72	Waste of f time it won't happen!!!
73	Communication and transparency
74	residents... not council non ljobs
75	Consultation
76	100
77	engagement and consultation
78	accountability
79	Partnerships like North Yorkshire's Stronger Communities initiative.
80	accountability
81	transparency
82	transparency
83	Transparency and accountability
84	Enabling people to engage - teach us how
85	public engagement, investment in assets which provide an income stream (especially in strategic areas like social housing and business incubation)
86	transparency and partnerships
87	flooding
88	Comuncating with residents in villages
89	An accessible online resource dedicated to green issues with links to: the climate committee (with details of the Council's strategy for dealing with the climate crisis and the ecological emergency, minutes of past meetings, actions, upcoming meetings etc); a page for all the recycling initiatives, a page highlighting any proposed projects that will have an impact on any significant carbon sinks (e.g. mature trees) and information on how to object, a page on relevant petitions, a page on upcoming green volunteer work etc.
90	GPs, your phone service, increasing approachability for younger citizens

Budget Consultation 2020/21

Please tell us what you think we should be spending more on - An open and effective Council

91	Lower paid staff, accountability
92	Community lead budgets
93	Mire transparency & in parish councils too
94	All
95	talking to other people including staff and listening
96	Transparency and honesty. (Still no records retention schedule still....completely useless!!) I have evidence in several emails where council staff have been lying to me about the details of my property. The council need to increase their wages to attract more knowledgeable staff workers who may want a career in politics.
97	Accountability
98	Accountable and transparent planning processes.
99	transparency
100	Communication and organisation
101	transparency and accountability
102	Partnerships and engaging communities
103	Consultations and presentations outside of work hours
104	accountability and communications
105	making sure that members of staff are york residents it does not work to employ staff from elsewhere
106	transparency
107	Building effective grassroots partnerships
108	Accountability
109	Accountability and transparency
110	Consulatations. Advertising consultations. Being trasparent. Keeping us up to date.
111	Leadership
112	Wish their was more transparency.
113	More open communication. I didn't know about this survey, just happened to come across it when looking for something else. People have no
114	Productive council operation.
115	Accountability
116	transparency, accountability, communication, partnerships and leadership.
117	Communicating directly to residents
118	partnerships with vol sector, not putting organisations in competition with each other, but collaborative working- properly
119	the quality of the streamed video from meetings is awful. A little money would solve the issue and possibly lead to more people viewing. PS. the behaviour of some councilloers needs to be addressed also.
120	accountability

Please tell us what you think we should be spending more on - An open and effective Council

121	supporting staff - stress, sickness and alcohol misuse
122	including residents in decision making
123	Making information more accessible on decision making, supporting data/evidence, performance/success of schemes after the fact (e.g. have transport schemes delivered the expected improvements?).
124	transparency
125	Partnerships
126	consultation and transparency
127	Research and meaningful engagement to underpin decision making and take the time to update customers and stakeholders in an accessible way
128	Enhance strength based approach even further
129	I think council is very open -though of course as always indformal agreements made behind closed doors are impossible to know. More responsive to ideas and support residents in making changes rather than just a consultation that makes no difference or is met with platitudes. The current consultations around housing developments are an excellent start as long as hey are followed through
130	Nothing
131	Recruiting better people
132	COMMUNICATION
133	Transparency and accountability.
134	Transparent minutes of meetings and recording of my council meetings, voting records of individual councillors
135	Consultation

Please tell us what you think we should be spending less on - An open and effective Council

- 1 partnerships and leadership
- 2 Council should not think it can always take more from people. There needs to be more innovation on doing things more efficiently and a review into what the council should and shouldn't be doing
- 3 Public services pay, bonuses, expenses
- 4 Consultants
- 5 consultation
- 6 the astonishing lack of productivity in council services
- 7 Salaries
- 8 Endless public meetings with pointless challenge
- 9 consultation
- 10 consultation
- 11 Taxis
- 12 Leadership
- 13 Partnerships
- 14 Chief executive, Directors and assistant directors salaries.
- 15 Internal red tape
- 16 Unnecessary consultancy jobs for mates etc
- 17 Council activities - just focus on key areas and work more efficiently
- 18 Consultation
- 19 Bureaucracy
- 20 consultants
- 21 Expensive consultants that don't achieve anything.
- 22 Beurocacy
- 23 Leadership and their salaries / pensions
- 24 Consults for work that can be undertaken by skill base within the council or within the local group of councils (NYCC, East Riding Etc)
- 25 Weak, non-binding pet projects on establishing York's "values" or "brand" which have very little bearing on how decisions are actually made
- 26 Reorganisation
- 27 Make it York and tacky Christmas markets
- 28 High salaries for council staff at leadership levels
- 29 partnerships and leadership.
- 30 Agenda driven consultations where only minority groups are represented
- 31 Roads
- 32 You should automatically be presenting transparently so you should need to spend nothing on this at all.

Please tell us what you think we should be spending less on - An open and effective Council

33	Councillors who are not doing the work they are supposed to be doing
34 Public consultation?
35	Recycling
36	People. - The Council employs too many incompetent entrepreneurs people
37	accountability, communication, consultation, partnerships and leadership.
38	Consultants charge disproportionately high rates for essentially performing the same task as a think tank in which residents from a variety of backgrounds could provide input for free, so I would hope that York City Council is not peeing money away on consultants
39	partnership
40	Passing the problem to others, ie; Its not our department, you will have to ring xxxxxxxx et
41	beurocracy
42	Consultation
43	Allowances and pay rises.
44	Leadership
45	All the above
46	Accountability
47	Councillor pay (incl. 'expenses').
48	Flawed projects. Executives pay, consultants fees
49	Consultation
50	Roads
51	Council vanity projects
52	Less on internal narrowly focussed tech
53	buses
54	Leadership
55	Partnerships
56	Management
57	Reduce all areas
58	Advertising
59	Councillors IGNORING Residents
60	Councillors stipends
61	unrealistic council pay structure and pensions
62	Self congratulation, accountancy
63	50
64	strategic partnerships

Please tell us what you think we should be spending less on - An open and effective Council

65	consultation, partnerships and leadership
66	unacceptably high pay rises or expensive contractors
67	partnerships and leadership
68	consultation
69	Partnerships ans leadership
70	The mayor having a car
71	executive remuneration and use of consultants
72	river saftey - more
73	City council offices in the centre of town where noone can aget to
74	partnerships and leadership
75	Older people, they are involved enough
76	Bonuses for top earners, pointless managers
77	Temporary executive appointments
78	promoting business interests at the expense of others
79	Meetings - sometimes attend 3 or 4 meetings that all say the same thing
80	Resentful staff members who have zero accountability or any motivation to do a good job.
81	Partnerships
82	council meeting biscuits
83	all other areas
84	Outside consultants
85	bringing in expewrtise a knowledge of York and its recent history is needed in order to plan its future
86	partnerships
87	Promoting the city
88	Bribes
89	partnerships and leadership
90	Awful facebook ads
91	Wasteful decisions and staff sickness
92	Ridiculous meetings that go on for hours and achieve nothing.
93	consultation and meetings
94	Consultants
95	It doesnt cost more to communicate effectively, staff who genuinely care and dont dismiss people who need support, preventative work will prevent crisis/ long term thinking not short term gate keeping of resources
96	leadership

Please tell us what you think we should be spending less on - An open and effective Council

97	manager to front line ratio
98	Marketing and comms, twitter etc. External consultants and interim staff.
99	consultation
100	make it york
101	Duplication of effort across council and partner services
102	Listening to global interests in developments or giving any financial incentives - these should be focussed on local businesses
103	Non core jobs
104	Employees who should really be fired
105	TRANSPARENCY
106	Partnerships
107	Councillors and high wage staff! The top level wages are obscene!

Further comments on the council budget

- 1 Focus should be on efficiency and doing the necessary things only
- 2 Council tax payers need some relief and a lower tax would be welcome.
Put money into areas where residents live instead of tourist attractions. Provide free, community led events for residents on a regular basis. Extend after school and out of school clubs for 5-18 year olds. Regenerate parks and implement community gardens. Listen to community voices and assist us in making York a better place for its residents. Improve bus services and implement a subsidised travel system for York residents.
- 3 Support school leavers with improved job fairs and careers guidance. Enforce drunk and disorderly rules in the city centre, particularly on weekends and race days. Scrap the ugly, offensive, permanent barriers you plan to place in the city centre. Prioritise existing York residents over tourists and corporations. Pledge to provide a minimum of 50% affordable housing across the city and surrounding areas until social housing is available to all who need it.
- 4 dont ban car access for visitors to get in and park.
- 5 I continue to be stunned at how anything involving the council progresses so slowly. From developing Piccadilly to buying a book of parking permits (45minutes???!), it's obvious CoYC hasn't a clue.
- 6 Yes, the council is way to open and transparent. Councillors are elected to make the decisions on our behalf just get on with them and don't be scared of the views of a handful of people who might write something mildly offensive on Twitter (who cares what they think)!
- 7 We have enough parks and green spaces in York don't need anything further there ,roads and services for community and flood defences need priority
- 8 cut back on the top salaried peoples wages
- 9 Salaries of senior staff are too high in comparison to those staff who work in front line services.
- 10 Repair potholes
- 11 There needs to be a massive shift to moving cars out of the city centre and making it pedestrian and cycle friendly. Also a big investment in building new homes that will not/can not be used to students.
- 12 Use it better
- 13 Please spend more on walking, cycle and public transport infrastructure and less on cars.
- 14 Please prioritise the climate emergency on everything else. Nothing is more urgent.
- 15 I think people are prepared to pay more is the rise is presented being a good thing to do for them and their family's well being. Social care is a point of concern for many residents. A survey of what is most important to the citizens would be useful.
- 16 The budget should be bold and in line with your declared climate emergency, and act in a strong and green manner accordingly.
- 17 Car park charges send people out to the new developments on the edge of the city depriving your city centre traders .
- 18 Roadside litter
- 19 Stop putting it up!! How are people expected to afford it when every year it goes up and wages don't! It's despicable
- 20 Get your communication sorted, you're doing ok. But there's room for improvement which should only help you get more engagement from residents and a better sense of direction

Further comments on the council budget

21	Please look carefully at cleanliness and tidiness of the city. At times litter and dirt in gullies etc is shocking and embarrassing. I have heard that some of these services are contracted out but are not monitored or supervised properly by the council.
22	This is probably not what you're after but what I would love to see in York is a winter garden, you know - inside glass houses. It could be high tech, ambitious, educational, and beautiful. And it would cheer us all up in the gloomy dark Yorkshire winters. I recently visited Edinburgh's botanic garden glass houses, and Lancaster's butterfly house - they're amazing.
23	Start remembering that it is your residents who live here and need the infrastructure before you pander to tourists.
24	My main concern is the planned 5G rollout. EMF radiation is linked to many physical and mental health issues and 5G is expected to create a huge increase in these issues. CYC needs to consider whether to create a moratorium on 5G developments - like other councils in the UK.
25	Investment is strongly needed to help fight crime and really improve on mental health support and schools.
26	Please keep the council tax down to a minimum. You need to 'manage out' many employees who are not capable of doing their job effectively. You need to implement a US style performance management system and weed out the poor performing employees and employ fewer, but better people
27	LEAVE SOME ASPECTS TO PRIVATE SECTOR IE GREEN SPACES ETC GET THEM INVOLVED AND THEY WILL DELIVER
28	Private renters, particularly in the band of Students and young professionals, feel let down by the council. It feels like council tenants have far greater rights than private tenants in York. We are unable to decorate, have our pets stay with us, even have children! I would like to see a change in this regard.
29	York roads are horrific, traffic is the same. Not nearly enough parking spaces. transport is essential for everything, yet it is constantly gridlocked almost every day
30	GREED.
31	Very hard task but more on housing and older people's care and housing. Also family support and housing for those with young families. Family centres etc.
32	People's health is key. No new industrial parks or housing. Green parks, play areas. Cut wastage
33	The survey does not really offer informed choices. Data should be given on existing expenditure per head of users. On that basis, the domestic refuse collection service is remarkably good value for money. But swimming pools and other leisure services?
34	This won't make a scrap of difference to what you do, plus you are well paid to make these decisions
35	It takes around 1 hour and 30 minutes to commute from Heslington to Leeds every day using public transport. It takes 50 minutes in the car. People want to use public transport for a cleaner environment but time constraints make it difficult. Invest to make a cleaner & more efficient city with inhabitants with better mental health
36	Council executives and consultant receive too much pay
37	York is a very expensive place to live. People of York on a low income shouldn't have to worry about more increases to their council tax bill when they are struggling to put food on the table. These are the ones who are seeing no benefits to their lives.
38	Get rid of homelessness and begging on our streets
39	Don't allow councillors to award themselves massive pay rises

Further comments on the council budget

40	Get rid of the hen and stag nights. Nobody needs them. There are enough tourists and residents to grow the economy and make it a nice place to be. Get proper cycling lanes where vehicles cannot infringe. And if you want cyclist to use them, prioritise filling in the bloody holes and cleaning the gutters. There are plenty of major routes out of York that are too dangerous to cycle on. Stop calling it a cycling city just because you have painted a few lines that everyone ignores
41	Encourage more construction and technology companys to resides in York
42	After years of austerity, a right wing governement and darkness in public discourse, be open and positive for an inclusive, resident focused, multicultural York.
43	Stop wasting tax payers money on useless management
44	Ask Boris for some more money.
45	Tax on hotel rooms of 1-2£ per person per night.
46	Cut the budget
47	Think long and hard before trying for top whack rises
48	I welcome the additional time provided for consultation with residents / businesses.
49	Fine and Contractors for any missed deadlines, Hiking of Prices and bad/useless workmanship that has to re redone and Residents PAY for Mistakes.
50	None
51	Challenge the government more. Put Sturdy under pressure to keep BoJo's promises. Don't let the keyboard warriors grind you down, but maintain standards of delivery and probity.
52	Why don't you run a York lottery like Harrogate. We would then have a local York Fund to pay for some of these important expenses. I'm sure residents would be willing to participate. At least talk to Harrogate about the pros and cons.
53	The council should simplify its goals and focus on the basics, the roads being the main current problem.
54	i do work for public sector and private sector, IT contracting i triple the price for public sector, we all do. we dont make any more profit, it all gets lost in the endless revisions, meetings, amended goals, more revisions, more meetings etc etc the quality if project management ive learned to expect public sector wouldnt be tolerated in the private sector
55	please prioritise spaces for young people, and activities that are affordable for children and young people.
56	Less vanity projects and more money directed at essential services
57	i do not live in york itself so this is a difficult one.
58	To the Lib Dems, Please don't stay complacent now you control the council. This city is great but there is a lot of work to be done. It will be more difficult with continued austerity but... We can do this!

Further comments on the council budget

- The council budget needs a complete overhaul with more consideration of the wider impacts budget decisions have on the whole of the York population, not just the focused population, not just the people who can speak up. There is far more to this city than the council seem to realise and things need to be rectified to start 'healing' the city. A city of youth and life that is being forgotten in favour of those who have come before and who have been provided for in services all their lives. Too much emphasis is put on a group of people who lived through a booming economy and are now leaving a legacy of recession - maybe even depression still - for their families while still shouting up that they should be put first. So
- 59 when will the council consider that if we want to have a city of great strength and succeed in your aims for your residents, you need to focus on the children and young adults now trying to forge their way forward, not place a ridiculous amount of emphasis on the elderly who, in my experience, have enough to live on, to thrive on, because of private pensions, savings, investments and other sources of income that are greatly supplemented by state pensions, and preferential treatment with the NHS, support services, and charities. There is a growing number of children with SEN who need help and it's simply not being recognised enough or provided for enough with the council or by the council. This needs to be considered in the budget.
-
- 60 Roads and infrastructure not been spent on for nearly 60 years. About time roads got sorted and public transport.
-
- 61 I do not support an increase to help some scrounger on the street and his dog. I can't afford to keep a dog.
-
- 62 Be ruthless on unnecessary spending. Ask „do we really need to spend this? and then ask the question again!
-
- 63 Do not approve of the proposed pay rise to councillors
-
- 64 The council needs to give a very high priority to cutting carbon emissions attributable to the activities of York residents.
-
- 65 Cut the fat that is non performing council staff and over zealous projects!
-
- 66 Roads pot holes and signs Making the city centre traffic free Allocate an area for disabled parking and not in the roads in the city centre
Reduced fees for resident parking Parking for local residents visiting the city free/park and ride free More discounts for families to visit the city as locals Stop drunks entering the city on a weekend at the station (give eboracum a payrise!) Find one pub and hold all the north east drunks in there to stop ruining the city.
-
- 67 There is tremendous room for improved efficiency and productivity without increased cost through effective line management and motivation using techniques commonly used in business circles . There is a huge lack of professional management expertise in the Council
-
- 68 We are happy to pay more for good public services
-
- 69 the cycling initiative will not go further until would be Cyclists feel safe. You need to appeal to people who do not cycle yet and designated safe routes through town are needed not strip of the road that cars can still drive over!
-
- 70 Maintenance of road surfaces is urgently required. Before closing any "rat runs" , make sure an alternative is in place.
-
- 71 It needs to be higher.
-
- 72 less emphasis on the private sector and more on Council needs
-
- 73 Please please please can you sort recycling. Please. Take a look at Leeds - they even recycle Tetra Paks now. And they only have to put stuff in one bin! The town also needs work (as in central town) to make it accessible for those with limited mobility
-
- 74 As previous - charge rates on all houses including student lets. Look at ways that are sensible to increase your income and cut your costs and councillor expenses.

Further comments on the council budget

75	We need to carefully review Council spending to see what impact it has... small pilots to explore impact and outcomes could help the city further develop.
76	Can the council please address with some urgency the 'stag and hen party' culture that has pervaded the city in recent years. it brings in revenue for business and the rail companies but is dragging the city down.
77	invest in a Dutch-style off-road cycle network
78	Needs to act sustainably now and stop supporting massive developments.
79	I'm not sure how involved / informed residents feel after completing this survey?
80	Keep up the good work. If anything can be done to reduce rowdy hen parties and stag parties in the afternoons when families are still out that would be great. They have taken over the city.
81	do not increase council tax it is extremely difficult for us to pay this on one persons living wage and one full time mother. It is crippling.
82	You employ too many people who are not really of high enough calibre. You could probably manage the council with less people if you got rid of the slackers. Introduce performance management to get rid of the poor performers
83	Please fix the roads properly and help small businesses sustain. Please help with free activity groups for women who are mainly housewives or want to learn more and get a job themselves etc
84	A lot of us in York are under a financial squeeze, the council must do its best to keep costs down.
