Hospital Admissions

Hospital Admissions, All ages

The Standardised Admission Ratio (SAR) is a summary estimate of admission rates relative to the national pattern of admissions and takes into account differences in a population's age, sex and socioeconomic deprivation. The National value is 100.

York Heworth Without - 2017/2018 2019/2020

Hospital Admissions - Children & Young People

Emergency hospital admissions

Emergency hospital admissions for injuries resulting from a fall (over 65), per 1,000 population

Falls data: the figures given here are taken from Hospital Episode Statistics data, which takes the number of those aged 65 or over being admitted to hospital on a non-elective basis at least once in each year as a result of a fall and divides it by the number of those of that age group resident in each ward to give a rate per 1,000 population.

Mortality

Mortality, All ages

Premature mortality

New cases of cancer

Covid Vaccinations uptake at 01/04/22 (now includes 12-15 year olds)

Adult Social Care

Social isolation

Social isolation: This is based on respondents to two questions on the Adult Social Care Survey regarding social contact and how time is spent.

A score of 1 indicates that the respondent has plenty of social contact and that they spend their time doing things they enjoy

A score of 4 indicates that the respondent feels socially isolated and that they don't feel they do anything of value with their time.

The mean of all respondents' responses to both questions is the score presented here.

Broadband coverage and speeds

In March 2017 the UK Government introduced the Universal Service Obligation (USO) for broadband as part of its commitment in the UK Digital Strategy to ensure that the UK has world-class digital connectivity and inclusion.

Measure	Heworth Without	York	Summary
Average download speed (Mb/s)	125.16	147.10	slower than the York average
Superfast broadband availability	96.88%	94.13%	better than the York average
Connections receiving:			
slowest speeds (under 2 Mb/s)	0.00%	0.04%	lower than the York average
slower speeds (under 10 Mb/s)	1.80%	0.81%	higher than the York average
superfast speeds (over 30 Mb/s)	94.97%	93.35%	higher than the York average

This data is based on analysis of Ofcom's Connected Nations data for 2020/2021. Ofcom collected and analysed data from major fixed telecoms operators (BT, Virgin Media, Sky, Talk Talk, Vodafone and KCOM). The availability data also includes coverage information provided by alternative network providers (B4RN, BU-UK, City Fibre, Gigaclear, Hyperoptic, ITS and Relish). Due to variations in broadband performance over time, Ofcom cautions that the data should not be regarded as a definitive and fixed view of the broadband infrastructure but rather a snapshot of current variation in availability and performance across the country. Due to privacy concerns Ofcom did not present the information in postcodes with fewer than four broadband connections.
